A Comprehensive Guide to Child Psychotherapy

Christiane Brems, an experienced psychotherapist and educator, offers a comprehensive, integrated approach to psychotherapy with children aged 4 to 12 years. Her research reveals that the combination of psychoanalysis and behavioral approaches creates change in children and helps the therapist recognize specific features in a child's life. Brems's clear, step-by-step writing style makes this an excellent book for both practitioners and students. It is appropriate for courses in clinical or counseling psychology, counselor education, clinical social work, marriage and family counseling, and child psychiatry.

Outstanding features...

- Offers an integrative, experiential, family systems, and self-psychoanalytical approach to therapy
- Illustrates the importance of issues in an actual treatment situation, making it possible to read along in the book as the therapy of a child unfolds
- Does not provide any single theoretical approach to psychotherapy, but instead provides a thorough foundation for assessment and conceptualization that can be tailored to the child
- Discusses a variety of treatment techniques, including play therapy, art, storytelling, behavior modification, and parent education
