Julia Schneider

Computerized Food Processing Operations:

Computerized Food Processing Operations Arthur A. Teixeira, Charles F. Shoemaker, 2012-12-06 This book is designed to explain and illustrate how food processing operations can be made more efficient and profitable through the application of computers in the laboratory pilot plant and production plant floor of industrial food processing plants It is intended to provide a sufficient understanding of how computer system concepts can be applied to food processing operations to permit technical managers with the assistance of food engineering professionals to identify develop and implement computer applications to meet their own specific needs The book should also serve as a useful text or guide for students in food engineering or food technology seeking a practical course on food process automation at the undergraduate graduate level interface The material covered includes the use of microcomputers for automated data acquisition and analysis in the laboratory and pilot plant followed by the use of computer based process control systems on the production plant floor Higher level applications are also included to illustrate the use of engineering software containing mathematical models for computer simulation optimization and intelligent on line control of specific food processing unit operations

Computerized Control Systems in the Food Industry Mittal, 2018-02-19 Covers the fundamentals and the latest advances in computerized automation and process control control algorithms and specific applications essential food manufacturing processes and unit operations This text highlights the use of efficient process control to convert from batch to continuous operation and enhance plant sanitation It compares both established and innovative control schemes **Computer Control in Manufacturing Industries** Jacob Sonny, 1979 *Computerized Process Control* Harry L.
