Computing Myths Class Realities:

Computing Myths, Class Realities David Hakken,2019-03-07 This study of computing in an economically transforming city in the north of England looks at how new information technologies effect and are affected by a historically vibrant working class culture Stressing the complex interplay between technology and culture especially notions about work and labor the authors examine how this dynamic is manifest in computer related jobs in social relationships and in the reproduction of local culture They analyze the structure of computing in Sheffield placing it in the contexts of national state policy world political economy and the regional labor market and they explore the processes of computing in relation to the reproduction of gendering the rise of labor freedom and local attempts to influence the course of computerization The experiences of the people in Sheffield and South Yorkshire have much to teach us about what technology does and what we can do to control it Computing Myths Class Realities will be of interest not only to anthropologists and sociologists but to all scholars interested in the social correlates of computing   Computing Myths, Class Realities David Hakken,Barbara Andrews,1993 A study of the effect of new information technologies on a traditional working class society in the north of England Focusing on the complex interplay between technology and society s ideas on work and labour it examines how these impulses are expressed in the service and manufacturing sectors   Computing Myths, Class Realities David J. Hakken,Barbara Andrews,1993-07-14 A study of the effect of new information technologies on a traditional working class society in the north of England Focusing on the complex interplay between technology and society s ideas on work and labour it examines how these impulses are expressed in the service and manufacturing sectors   The Bushman Myth Robert Gordon,Stuart Sholto-Douglas,2018-02-07 The revised updated version of this book includes an analysis of the sweeping political changes in South Africa since its original publcation in 1992 Other new material covers more theoretical issues and contemporary developments in scholarship including a reconsideration of the film The Gods Must Be Crazy a discussion of expos thnography and its attendant political moral positioning and an examination of the political situation in Namibia with a close study of the near collapse of the Nyae Nyae Development Foundation   The Knowledge Landscapes of Cyberspace David Hakken,2004-03-01 How is knowledge produced and used in cyberspace David Hakken a key figure in the anthropology of science and technology studies approaches the study of cyberculture through the venue of knowledge production drawing on critical theory from anthropology philosophy and informatics computer science to examine how the character and social functions of knowledge change profoundly in computer saturated environments He looks at what informational technologies offer how they are being employed and how they are tied to various agendas and forms of power Knowledge Landscapes will be essential for both social scientists and cultural studies scholars doing research on cyberculture   **The Myth Of The Male Breadwinner** Helen I Safa,2018-02-06 First Published in 2018 This book examines the debate about the effects of paid employment on women through studies of women industrial workers in Puerto Rico the Dominican Republic and Cuba It

focuses on following areas of women s lives wages and working conditions the family life cycle and household composition

Strategic Use of Information Technology for Global Organizations Hunter, M. Gordon,Tan, Felix B.,2007-04-30 This book provides valuable insights into the role of the CIO his interaction within the organization and external relationships with vendors and suppliers It emphasizes the need for balance between management and technology in the role of CIO and focuses on this role as an expert on information technology and a leader in the appropriate application of IT Provided by publisher   *Healthy Work* Namir Khan,Nina Nakajima,Willem H. Vanderburg,2004-11-08 The latest in a series focused on improving health conditions this volume addresses work environments bringing together diverse sources of literature that support preventive approaches to work design and organization This reference provides an overview of relevant literature to engineers managers accountants occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects Other titles in the series include Healthy Cities Sustainable Production Sustainable Energy   *Beyond Capital* David Hakken,Maurizio Teli,Barbara Andrews,2015-10-23 The financial social cataclysm beginning in 2007 ended notions of a great moderation and the view that capitalism had overcome its systemic tendencies to crisis The subsequent failure of contemporary social formations to address the causes of the crisis gives renewed impetus to better analysis in aid of the search for a better future This book contributes to this search by reviving a broad discussion of what we humans might want a post capitalist future to be like It argues for a comparative anthropological critique of capital notions of value thereby initiating the search for a new set of values as well as identifying a number of selected computing practices that might evoke new values It articulates a suggestive set of institutions that could support these new values and formulates a group of measurement practices usable for evaluating the proposed institutions The book is grounded in contemporary social science political theory and critical theory It aims to leverage the possibility of alternative futures implied by some computing practices while avoiding hype and technological determinism and uses these computing practices to explicate one possible way to think about the future   Oigame! Oigame! Michael James Higgins,Tanya L Coen,1992-09-16 Drawing on four years of street level perspective of political activity and change in Sandinista and post Sandinista Nicaragua the authors paint an intimate portrait of ordinary people caught up in the excitement of their roles in the ongoing political drama   **SAE Bulletin** ,1997   *Rethinking Ethnology and Folkloristics* Pille Runnel,2001
