The Bible of the Ethiopian Mitchell S. Nicholson, 2026-03-26 You've been reading an incomplete Bible your entire life The world's oldest Christian church has been quietly guarding the rest of it for fifteen centuries While Western Christianity debated which books belonged in Scripture the Ethiopian Orthodox Tewahedo Church simply kept reading all of them eighty one books preserved in the ancient language of Ge'ez including texts the Dead Sea Scrolls proved were central to the world that produced Jesus The Book of Enoch The Book of Jubilees Three uniquely Ethiopian books of the Maccabees Apostolic books of church order embedded within the New Testament itself Texts that survived intact and canonical only in Ethiopia because nobody told these monks they were supposed to stop reading them This is the book that has never been written the first comprehensive English language study of the world's largest Christian Bible How the canon was formed what makes it different why it matters and what it reveals about the history of Scripture that every other tradition has quietly agreed not to discuss You will learn why Martin Luther declared full communion with the Ethiopian church in 1534 and why that encounter was erased from Protestant history Why the Dead Sea Scrolls vindicated what Ethiopia canonized a thousand years earlier Why the Garima Gospels radiocarbon dated to 390 CE never removed from their Tigrayan monastery are the oldest illustrated Christian manuscripts on earth And why the number eighty one is not an accident The Ethiopian church has been waiting patiently for the rest of Christianity to catch up Read this book
