Art Question:

The Art of Being Jewish in Modern Times Barbara Kirshenblatt-Gimblett, Jonathan Karp, 2008 This richly illustrated volume illuminates how the arts have helped Jews confront the challenges of modernity There truly is an art to being Jewish in the modern world or alternatively an art to being modern in the Jewish world and this collection fully captures its range diversity and historical significance

Art's Way Out John Baldacchino, 2012-03-26 In taking the critique of inclusion and entry as a first step *Art's Way Out's* discussion of art politics and learning aims to delineate what an exit pedagogy would look like where culture is neither seen as a benign form of inclusion nor as a hegemonic veil by which we are all subscribed to the system via popularized forms of artistic and cultural immediacy An exit pedagogy as prefigured in what could be called *art's way out* through the implements of negative recognition qua impasse would not only avoid the all too facile symmetrical dualism between conservative and progressive liberal and critical pedagogies but also seek the continuous referral of such symmetries by setting them aside and look for a way out of the confined edifices of education and culture per se An exit pedagogy seeks its way out by reasserting representation in the comedic the jocular and more effectively in the arts power of pausing as that most effective way by which aesthetics comes to effect in its autonomist and radical essence In this fluent limpid and scholarly work Baldacchino examines inter alia the problem of empathy in relation to art as an event or series of events drawing upon a wide and rich range of sources to inform what in effect is his manifesto With a profound understanding of its philosophical basis Baldacchino unfolds his argument in an internally consistent and elegantly structured way This is not a book to be dipped into to do so would miss the development of Baldacchino's philosophical position like an art work itself *Art's Way Out* has coherent structure and a complex interrelation between form and content reflecting an artist's concern for getting things right Richard Hickman Cambridge University Although art has a limitless capacity to take on myriad responsibilities according to Baldacchino we also need to consider a way out because only then will we understand how art goes beyond the boundaries of possibility As he explains our way into reason also comes from an ability to move outside the limits that reasons sets This is the exit pedagogy that he advocates And here exit does not mean to leave but rather to reach beyond to extend and explore outside the borders we impose on learning teaching schooling and most forms of cultural agency The need to embrace the capacity of art to cycle beyond the contingencies we impose on it also helps to clarify the limits of inclusive arguments for deploying art education for various individual institutional and socio political ends art as self expression art as interdisciplinary method art as culture industry art as political culture art as social justice and so on This image invokes for me part of the legacy of Maxine Greene that Baldacchino revealed in his earlier text *Education Beyond Education* 2009 when he explored her thesis of the social imagination which is best achieved when teaching becomes reaching What *Art's Way Out* gives us is an exit strategy from the deadening tendency to ignore the enduring capacity of art to give life to learning teaching and the very culture of our being Graeme Sullivan Penn State
