Delhi's Changing Built Environment Piyush Tiwari, Jyoti Rao, 2017-12-22 The rapid expansion urban form and development of the built environment in the world s second most populous city Delhi has been the consequence of social political economic planning and architectural traditions that have shaped the city over thousands of years Whilst seamless at times these traditions have often resulted in the fragmented development of the city s built environment This book charts the political economic and social forces that drove development in India generally and in Delhi

in particular and investigates the drivers and constituents of Delhi's urban landscape. The book provides a lens through which to examine the development path of a mega city which can be used as a guide in the development of emerging urban centres. Furthermore, the strengths and weaknesses of Delhi's built environment are critically analysed with consideration to the role of the market, finance and policy over time. This book not only provides valuable insight into the physical evolution of Delhi and its surrounds but it also asks broader questions about how people, power and politics interact with urban environments. It is essential reading for planners, architects, urbanists and social historians.

Art Deco Complete Alastair Duncan, 2009. In the most comprehensive account of the decorative arts of the Art Deco period ever assembled, Alastair Duncan celebrates the rich variety of form and diverse international roots that have made it a perennial favourite of collectors and a constant source of inspiration for designers. Straddling two World Wars and the Great Depression, ushering in the Jazz Age and the era of the automobile and skyscraper, and shaping everything from the Golden Gate Bridge to the humble desk lamp, the story of Art Deco is the story of our modern world. In its purest forms, it developed from a characteristically French image of luxury and refinement. Later modernist European and American designers incorporated metal and plastic in styles described as Streamline Moderne but which are now called Deco. Although Paris was the spiritual home of the movement, Art Deco was a truly global style with designers from every country in Europe and the Americas inspired by a vast international catalogue of artistic and craft traditions. The guide begins with essays on the major media of the period: Furniture and Interior Decoration, Sculpture, Paintings, Graphics, Posters and Bookbinding, Glass, Ceramics, Lighting, Textiles, Silver, Metal, Lacquer and Enamel and Jewelry, each followed by lavishly illustrated in-depth biographies of the major designers and artists working in the medium. The second half of the book is an authoritative, illustrated A-Z listing of all significant designers in the Art Deco style, comprising over four hundred entries.

Art Deco and Modernist Carpets Susan Day, 2002-10. In 1927, the critic Rene Chavance identified carpet production as the most successful of the decorative arts in achieving the more visionary aims of the times. Susan Day's book, a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors, demonstrates that these Art Deco carpets have lost none of their decorative power. A significant number of the carpets are shown precisely as they were meant to be seen within the rooms for which they were made. The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book. In the second, the focus turns to the reaction against the artistes decorateurs by the champions of modernism. In France, the designs of Sonia Delaunay, Eileen Gray and Jean Lurcat evoked collage and Cubism. The Bauhaus and Scandinavia provided different influences.

The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso Klee and Miro while in the USA designers developed a style that was distinctly American This visual feast of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th century design ranges from the supremely imaginative achievements of Paul Poiret s unique weaving studio the Ecole Martine to the Scandinavian folk traditions of Marta Maas Fjetterstrom the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl s handwoven carpets in Germany The book s invaluable reference section includes detailed information on artists
