Benin Studies R. E. Bradbury, 2018-08-16 This collection of R E Bradbury s papers originally published in 1973 includes edited sections of his then hitherto unpublished thesis on the Benin village in Western Nigeria The book is arranged in 3 parts historical and political studies of the kingdom of Benin Benin village organization and religion and art An introduction by Peter Morton Williams traces bradbury s development as an interpreter of the culture society and art of Benin beginning with his first studies in the field and culminating in the important anthropological and historical essays Benin Studies. Edited, With an Introd. by Peter Morton-Williams. Foreword by Daryll Forde R. E. Bradbury, 1973 State and Society John Gledhill, Barbara Bender, Mogens Trolle Larsen, 1995 The traditional Eurocentric view of state formation and the rise of civilization is challenged in this broad ranging book Bringing archaeological research into contact with the work of ethno historians and anthropologists it generates a discussion of fundamental concepts rather than a search for modern analogies for processes that occurred in the past **Zoological Studies** University of Aberdeen, 1914 A Place in the World, 2021-10-01 Local histories written and published by non academic historians constitute a rapidly expanding genre in contemporary non Western societies However academic historians and anthropologists usually take little notice of them This volume takes a comparative look at local historical writing Thirteen case studies set in seven different countries of sub Saharan Africa India and Nepal examine the authors their books and their audiences From different perspectives they analyse the genre s intellectual roots its relationship to oral historical narratives and its relevance and impact in local and wider arenas Local histories it turns out pursue a variety of agendas They re construct local and communal identities affected by rapid social change Often they re write history as part of cultural and political struggles Openly or implicitly all of them place local communities on the map of the world at large A Place in the World Axel Harneit-Sievers, 2002 Readership Historians and social anthropologists of Africa and India and all those interested in modern intellectual history in the interactions between orality and literacy and in local global and local state relationships BOOK JACKET Zoological Studies John Arthur Thomson, 1914 Beyond Primitivism Jacob K. Olupona, 2004-02-24 At a time when local traditions across the world are forcibly colliding with global culture Beyond Primitivism explores the future of indigenous religions as they encounter modernity and globalisation The Evolution of Social Institutions Dmitri M. Bondarenko, Stephen A. Kowalewski, David B. Small, 2020-09-12 This book presents a novel and innovative approach to the study of social evolution using case studies from the Old and the New World from prehistory to the present This approach is based on examining social evolution through the evolution of social institutions Evolution is defined as the process of structural change Within this framework the society or culture is seen as a system composed of a vast number of social institutions that are constantly interacting and changing As a result the structure of society as a whole is also evolving and changing The authors posit that the combination of evolving social institutions explains the non linear character of social evolution and that every society

develops along its own pathway and pace Within this framework society should be seen as the result of the compound effect of the interactions of social institutions specific to it Further the transformation of social institutions and relations between them is taking place not only within individual societies but also globally as institutions may be trans societal and even institutions that operate in one society can arise as a reaction to trans societal trends and demands The book argues that it may be more productive to look at institutions even within a given society as being parts of trans societal systems of institutions since despite their interconnectedness societies still have boundaries which their members usually know and respect Accordingly the book is a must read for researchers and scholars in various disciplines who are interested in a better understanding of the origins history successes and failures of social institutions **Aberdeen University Studies** ,1914

**Research in African Literatures** ,2000 Vol 1 spring 1970 include A Bibliography of American doctoral dissertations on African literature compiled by Nancy J Schmidt **Things Fall Apart?** Pauline von Hellermann,2013-09-01 Governance failure and corruption are increasingly identified as key causes of tropical deforestation In Nigeria s Edo State once the showcase of scientific forestry in West Africa large scale forest conversion and the virtual depletion of timber stocks are invariably attributed to recent failures in forest management and are seen as yet another instance of how things fall apart in Nigeria Through an in depth historical and ethnographic study of forestry in Edo State this book challenges this routine linking of political and ecological crisis narratives It shows that the roots of many of today s problems lie in scientific forest management itself rather than its recent abandonment and moreover that many illegal local practices improve rather than reduce biodiversity and forest cover The book therefore challenges preconceptions about contemporary Nigeria and highlights the need to reevaluate current understandings of what constitutes good governance in tropical forestry **Benin Journal of Historical Studies** ,1998 African Research & Documentation ,1988 *Catalog of the Melville J. Herskovits Library of African Studies, Northwestern University Library (Evanston, Illinois) and Africana in Selected Libraries* Melville J. Herskovits Library of African Studies,1972 Radical Essays on Nigerian Literatures G. G. Darah,2008 This anthology of essays brings together original critical comments on Nigerian literatures written in the 1970s and 1980s It is a celebration of Nigeria s contribution to the world s heritage of letters The twenty three essays in it explore the fundamental role of the intelligentsia in defining and describing the nation state in space and time The contributions represent some of the best and most articulate assessments of Nigeria s literary discourses in their pre colonial and colonial phases The various ideological reflections in the essays reveal significant details about the intellectual and imaginative processes that have gone into the shaping of Nigeria over the centuries The diversity of themes examined the historical epochs covered and the geo political spread of the contributors add to the uniqueness of the volume Chinua Achebe J P Clarke Femi Osofisan and Kole Omotoso are among the 23 contributors included Niger Delta Studies, 1627-1967 Jigekuma A.
