Consumers In Context The Bpm Process:

Consumers in Context Gordon Foxall, 2016-01-29 This book first published in 1996 presents a collection of papers by Gordon Foxall charting the development of the Behavioural Perspective Model BPM which he devised in the early 1980s and subsequently developed The model offers a unique and original behaviour based theory of consumer choice In seeking to answer the question where does consumer choice take place by drawing upon behavioural psychology Foxall presents an exciting challenge to previous theories whose emphasis has been on the internal working of the consumer's mind in reaching rational decisions and choices Bringing alive the important subject of economic consumption this seminal volume will be of great interest to students and researchers in consumer research

Context and Cognition in Consumer Psychology Gordon Foxall, 2017-10-16 Context and Cognition in Consumer Psychology is concerned with the psychological explanation of consumer choice It pays particular attention to the roles of perception and emotion in accounting for consumers actions and their interaction with the desires and beliefs in terms of which consumer choice is frequently analyzed In this engaging book Gordon Foxall extends and elaborates his theory of consumer action based on the philosophical strategy of Intentional Behaviorism In doing so he introduces the concept of contingency representation to explore the ways in which consumers mentally represent the consequences of past decisions and the likely outcomes of present consumption The emphasis is on action rather than behavior and the manner in which the intentional consumer situation as the immediate precursor of consumer choice can be reconstructed in order to explain consumer actions in the absence of the environmental stimuli required by behaviorist psychology The result is a novel reaffirmation of the role of cognition in the determination of consumer choice Besides the concept of contingency representation which the author introduces the analysis draws upon psychoanalytic concepts theories of cognitive structure and processing and the philosophy of perception to generate a stimulating synthesis for consumer research The book will be of interest to students and researchers in consumer behavior and economic psychology and to all who seek a deeper interdisciplinary understanding of the contextual and cognitive interactions that guide choice in the market place

Consumer Research Stephen Brown, Darach Turley, 1997 Consumer Research Postcards from the Edge is a collection of cutting edge essays by leading exponents of postmodern consumer research from Europe and America Topics covered include chronicle composition and fabulation in consumer research postmodern approaches to pluralism in consumer research marketing in cyberspace poststructuralism in marketing semiotics in marketing and consumer research

The Routledge Companion to Consumer Behavior Analysis Gordon Foxall, 2015-08-20 The Routledge Companion to Consumer Behavior Analysis provides a unique and eclectic combination of behavioral cognitive and environmental perspectives to illuminate the real world complexities of consumer choice in a marketing oriented economy Edited by a leading authority in the field the contributing authors have created a unique anthology for understanding consumer preference by bringing together the very latest research and thinking in consumer

behavior analysis This comprehensive and innovative volume ranges over a broad multi disciplinary perspective from economic psychology behavioral psychology and experimental economics but its chief focus is on the critical evaluation of consumer choice in the natural settings of affluent marketing oriented economies By focussing on human economic and social choices which involve social exchange it explores and reveals the enormous potential of consumer behavior analysis to illuminate the role of modern marketing oriented business organizations in shaping and responding to consumer choice This will be of particular interest to academics researchers and advanced students in marketing consumer behavior behavior analysis social psychology behavioral economics and behavioral psychology

The Social Psychology of Consumer Behaviour Richard P. Bagozzi, Zeynep Gurhan-Canli, Joseph R. Priester, 2002 The aim of this volume is to illuminate an area of intense academic and wider interest bringing together research and practical insights into how theories in social psychology can be applied to consumer behaviour Core themes include information processing and social cognition communication processes attitude models emotion social identity theory and action theory Within each of the major areas of social psychology a historical perspective is provided current knowledge reviewed theories and findings critiqued and directions for future research appraised The book considers why consumers buy what they do and how they go about making individual and group decisions concerning consumption The result should be of interest to students researchers and practitioners in psychology and marketing as well as those in related fields such as public policy public health health psychology political science and sociology

The Routledge Handbook of Tourism and Sustainability C. Michael Hall, Stefan Gossling, Daniel Scott, 2015-02-11 Routledge Handbook of Tourism and Sustainability from C Michael Hall Stefan Gossling Daniel Scott is one of the winners of the ITB Book Awards 2016 in the category Specialist tourism literature Sustainability remains one of the major issues in tourism today Concerns over climate and environmental change the fallout from the global economic and financial crisis and the seeming failure to meeting UN Millennium development goals have only reinforced the need for more sustainable approaches to tourism however they be defined Given the centrality of sustainability in tourism curricula policies research and practice it is therefore appropriate to prepare a state of the art handbook on the relationship between tourism and sustainability This timely Handbook of Tourism and Sustainability is developed from specifically commissioned original contributions from recognised authors in the field providing a systematic guide to the current state of knowledge on this area It is interdisciplinary in coverage and international in scope through its authorship and content The volume commences with an assessment of tourism s global environmental e g climate emissions energy use biodiversity water use land use and socio economic effects e g economic impacts employment and livelihoods culture This then provides the context for sections outlining the main theoretical frameworks and constructs that inform tourism and sustainability management tools and approaches and the approaches used in different tourism and travel industry sectors The book concludes by examining emerging and future concerns in tourism and sustainability such as peak oil post carbon tourism green economy and

transition tourism This is essential reading for students researches and academics interested in the possibilities of sustainable forms of tourism and tourism s contribution to sustainable development Its assessment of tourism s global impact along with its overviews of sectoral and management approaches will provide a benchmark by which the sustainability of tourism will be measured for years to come

Explaining Consumer Choice G. Foxall,2007-06-27 This book presents the most up to date account of research based on the Behavioural Perspective Model of consumer choice The accumulated empirical results which draw on behavioural economics psychology and marketing are summarized after which the philosophy of science that underpins the model is explored Foxall s contribution to the debate about the explanation of consumer choice intentional behaviourism is both expounded and critiqued and the resulting synthesis is explored in relation to its relevance to marketing management public policy on environmental matters the adoption and diffusion of innovations and further research in consumer behaviour and marketing This is a major contribution to consumer research and marketing theory

The Behavioral Economics of Brand Choice G. Foxall,2007-06-27 Understanding consumer choice is central to modern marketing thought and practice This volume presents a ground breaking approach to the analysis of brand choice which is relevant to both marketing practice and social science This unique analysis reveals the causes of consumer choice that underlie patterns of brand selection the role of price and non price elements of the marketing mix in influencing brand choice a novel means of describing the structure of markets in terms of the combination of utilitarian and symbolic benefits consumers obtain from their purchases and a new means of analyzing consumer behaviour in terms of elasticity of demand

The Continuum of Consumer Choice Gordon R. Foxall,2024-03-12 Human consumption is multi faceted and so requires inter disciplinary exploration in order to explain a spectrum of experiences that is at once particular and allpervading Consumer choice is a microcosm of human activity which transcends the purview of the archetypal marketing or consumer psychology textbook Its perspective is that of social science itself This book understands the study of consumer choice as a paradigm of human socio economic activity and seeks further understanding of its socio economic and philosophical bases The Continuum of Consumer Choice provides a novel view of consumer choice based on the temporal horizon of the consumer giving rise to a spectrum of consumption styles from the everyday to the extreme The focus is on explaining this continuum in behavioral cognitive and neurophysiological terms affording the reader a unique perspective on the intellectual basis of consumer psychology and marketing The reader gains insight into a critical combination of economic psychology neurophysiology and philosophy which contributes to establishing marketing and consumer research as scholarly academic pursuits The book s particular focus is the proper place and form of an intentional cognitive and perceptual explanation of consumer choice This is an essential monograph for advanced students in consumer psychology and marketing as well as for researchers in these areas It is particularly relevant to marketing and consumer theory providing appreciation

of their scholarly foundations It also appeals to students lecturers and researchers in social science generally who are alert to the intellectual potential of consumer psychology and marketing as contributors to a full understanding of human behavior and experience

Marketing Psychology G. Foxall, 1997-09-15 Marketing Psychology portrays the behaviour of consumers as influenced by its environmental consequences and extends this analysis to marketing management by proposing a novel understanding of the marketing firm The book undertakes a behaviour analysis of consumer choice based on a critical extension of radical behaviourism to the interpretation of human economic behaviour This suggests that consumer behaviour is explained by locating it among the environmental contingencies that shape and maintain it The result is a view of consumer choice and marketing response which transcends current understanding with profound managerial and policy implications
