Bad Things:

Trials of Reason David Wolfsdorf, 2008-01-22 Scholarship on Plato's dialogues persistently divides its focus between the dramatic or literary and the philosophical or argumentative dimensions of the texts. But this hermeneutic division of labor is naive for Plato's arguments are embedded in dramatic dialogues and developed through complex, largely informal exchanges between literary characters. Consequently, it is questionable how readers can even attribute arguments and theses to the author himself. The answer to this question lies in transcending the scholarly divide and integrating the literary and philosophical dimensions of the texts. This is the task of *Trials of Reason*. The study focuses on a set of fourteen so-called early dialogues, beginning with a methodological framework that explains how to integrate the argumentation and the drama in these texts. Unlike most canonical philosophical works, the early dialogues do not merely express the results of the practice of philosophy. Rather, they dramatize philosophy as a kind of motivation, the desire for knowledge of goodness. They dramatize philosophy as a discursive practice motivated by this desire and ideally governed by reason. And they dramatize the trials to which desire and reason are subject, that is, the difficulties of realizing philosophy as a form of motivation, a practice, and an epistemic achievement. In short, *Trials of Reason* argues that Plato's early dialogues are as much works of meta-philosophy as philosophy itself.

Plato's Moral Psychology Rachana Kamtekar, 2017 Plato's Moral Psychology is concerned with Plato's account of the soul and its impact on our living well or badly, virtuously or viciously. The core of Plato's moral psychology is his account of human motivation, and Rachana Kamtekar argues that throughout the dialogues Plato maintains that human beings have a natural desire for our own good, and that actions and conditions contrary to this desire are involuntary. From which follows the Socratic paradox that wrongdoing is involuntary. Our natural desire for our own good may be manifested in different ways: by our pursuit of what we calculate is best, but also by our pursuit of pleasant or fine things, pursuits which Plato assigns to distinct parts of the soul. Kamtekar develops a very different interpretation of Plato's moral psychology from the mainstream interpretation, according to which Plato first proposes that human beings only do what we believe to be the best of the things we can do. Socratic intellectualism, and then in the middle dialogues, rejects this in favour of the view that the soul is divided into parts with some good-dependent and some good-independent motivations, the divided soul.

All of the books are stand-alones with guaranteed happy endings. Danger, romance, action, suspense, humor—oh, it's definitely time to find some trouble.
