Tangedal, 2021-11-06 Building on insights from the fields of textual criticism bibliography narratology authorship studies and book history The Preface American Authorship in the Twentieth Century examines the role that prefaces played in the development of professional authorship in America Many of the prefaces written by American writers in the twentieth century catalogue the shifting landscape of a more self consciously professionalized trade one fraught with tension and compromise and influenced by evolving reading publics With analyses of Willa Cather Ring Lardner F Scott Fitzgerald Ernest Hemingway Robert Penn Warren and Toni Morrison Ross K Tangedal argues that writers used prefaces as a means of expanding and complicating authority over their work and ultimately as a way to write about their careers Tangedal's approach offers a new way of examining American writers in the evolving literary marketplace of the twentieth century *The Mountain and the Politics of Representation* Jenny Hall, Martin Hall, 2023-11-01 The stories we tell published or otherwise condition our mountain experiences in practice and reinforce cultural memory and representation Yet as this book and the authors within it set out to demonstrate if we look beyond the boundaries of this singular white history there is a rich

diversity of stories to tell This volume contributes to a growing body of scholarship that calls for a heterogeneity of voices in mountain memoir genres For the first time this diverse scholarship interrogates how mountaineering literary and media culture impact bodies spaces and places in order to nuance how commodification intersects across social categories and is embodied in multi dimensional ways In this volume we explore a burgeoning tradition of mountaineering literature of cinema and of memoir to appreciate difference beyond the habitual heroic white male adventurer that dominates screens and bookshelves Through exploring multidimensional axes of social differentiation from gender race class and age to dis ability and sexuality the book will demonstrate how commodification is embodied through representation in mountaineering literature media film and memoir in mountaineering spaces Amongst our aims this book intends to understand how multiple social dimensions overlap and work to produce independent systems of exclusion and inclusion that focus on untraditional ways to be a mountaineer
