Broken Circle:

Inside the Spiral Suzaan Boettger, 2023-04-11 An expansive and revelatory study of Robert Smithson's life and the hidden influences on his iconic creations. This first biography of the major American artist Robert Smithson, famous as the creator of the Spiral Jetty, deepens understanding of his art by addressing the potent forces in his life that were shrouded by his success, including his suppressed early history as a painter, his affiliation with Christianity, astrology, and alchemy, and his sexual fluidity. Integrating extensive investigation and acuity, Suzaan Boettger uncovers Smithson's story and with it symbolic meanings across the span of his painted and drawn images, sculptures, essays, and earthworks, up to the Spiral Jetty and beyond to the circumstances leading to what became his final work, Amarillo Ramp. While Smithson is widely known for his monumental earthwork at the edge of the Great Salt Lake, Inside the Spiral delves into the arc of his artistic production, recognizing it as a response to his family's history of loss, which prompted his birth and shaped his strange intelligence. Smithson configured his personal conflicts within painterly depictions of Christ's passion, the rhetoric of science fiction, imagery from occult systems, and the impersonal posture of conceptual sculpture. Aiming to achieve renown, he veiled his personal passions and transmuted his professional persona, becoming an acclaimed innovator and fierce voice in the New York art scene. Featuring copious illustrations, never before published, of early work that eluded Smithson's destruction, as well as photographs of Smithson and his wife, the noted sculptor Nancy Holt, and recollections from nearly all those who knew him throughout his life, Inside the Spiral offers unprecedented insight into the hidden impulses of one of modern art's most enigmatic figures. With great sensitivity to the experiences of loss and existential strife that defined his distinct artistic language, this biographical analysis provides an expanded view of Smithson's iconic art, pilgrimage site, and the experiences and works that brought him to its peculiar blood-red water. The Gravity Connection Robert Dean Burlison II, Once gravity is explained, it leads to connect the UFO. Do they exist based on what can be built? Further connections yield new physics theory. The ultimate connection explains through science how God's existence is feasible and a scenario for Creation going back before the Big Bang and before Time. As an experiment in thought, because one cannot do the experiments in a lab, there are dead ends, but the general concepts are sound. Reviewed twice, the visible review by that guy who knows the author well is in fact by the author, me. The other review is in the form of the book, which is NOT in the FREE PREview. All I will say is that though much was over his education, I had proved what I set out to prove. He is NOT stupid. In fact, his email domain is illinois.gov. The book was typed in 1989, but I lost faith due to little me actually dealing with God. I copyrighted in 2007. NOW, circa 2017, so-called scientists are claiming to have proved God. They did not give one equation, diagram, engineering, or scientific analogy/parable. They just added more circumstantial evidence of a Creator, which common man did not know. So I tried to message the publisher and added another piece of circumstantial evidence. If God had provided 5% less mass of atmosphere, the density at ground Kitty Hawk level would NOT
