behind their deviance labeling them predators Others are blindsided by things meant to harm them either due to ignorance or a lack of comprehension We need more conversations that inform and educate our children Constance Macon recently learned that her childhood abuse was traumatic on levels that she never imagined As a young girl the thief of her virginity played a subsequent roll in her inability to identify healthy behaviors which spilled over into the way she surged through life Journey along as Constance share the highs and lows of being at war with herself while crossing many paths in search of her truths Do you know what its like to be labeled a problem child without anyone asking why Have you ever engaged in self destructive behaviors as a coping mechanism because you were trapped in your own thoughts Do you know that victory is on the opposite side of defeat With the mind of a winner Constance was determined to do better In heavy pursuit of a better life this once Crack addicted woman with tons of potential enrolled in college after an injury that ended a promising athletic future in women s basketball She holds two degrees with her masters in social work Turn these pages for a riveting at times tear jerking account of her near death experience at the hands of a lover Constance share some of her most intimate struggles in the face of repeated adversities which saved her from the broken boundaries of her own fears She s no longer living in fear because the battle is being won one word at a time it s not safe inside or out however in order to be victorious you have to desire being triumphant
