**The Buck Stops Here** Thomas J. Craughwell, Edwin Kiester Jr, 2010-05-01 The Buck Stops Here consists of twenty eight engrossing accounts of the most important United States presidential decisions in history They range from the abolition of slavery with the Emancipation Proclamation to the acquisition of vast new territory with the Louisiana Purchase to the establishment of enduring institutions such as Medicare and America's national parks These decisions encompass too such less well known measures as the G I Bill of Rights which cleared the way for more than two million veterans to receive a college education as well as acts that reverberated worldwide including Theodore Roosevelt's construction of the Panama Canal Harry S Truman's deployment of the atom bomb Richard Nixon's visit to China and John F Kennedy's pledge to put a man on the moon Thomas J Craughwell and Edwin Kiester Jr's fascinating survey of twenty eight crucial presidential decisions opens a door into the White House's corridors of power giving readers an insider's view of how and why these decisions were made while providing a yardstick with which we might perhaps gauge the success of current and future presidents Each chapter places the reader squarely in the historical period while presenting the issues at stake the interests at work and the obstacles encountered This book takes the reader into the minds of some of American history's greatest leaders and analyzes the enduring often far reaching sometimes unforeseen consequences of these presidential decisions in their own time and right up to the present day Some of these decisions were simply expedient others required the courage of conviction in the face of intense opposition Some were motivated by political loyalties but many were evidently inspired by noble visions of a better nation a fairer world All were momentous and helped define who we are and how we live now

**Deep Control** John Martin Fischer, 2011-12-26 In this collection of essays a follow up to My Way and Our Stories John Martin Fischer defends the contention that moral responsibility is associated with deep control Fischer defines deep control as the middle ground between two untenable extreme positions superficial control and total control Our freedom consists of the power to add to the given past holding fixed the laws of nature and therefore Fischer contends we must be able to interpret our actions as extensions of a line that represents the actual past In connecting the dots we engage in a distinctive sort of self expression In the first group of essays in this volume Fischer argues that we do not need genuine access to alternative possibilities in order to be morally responsible Thus the line need not branch off at crucial points where the branches represent genuine metaphysical possibilities In the remaining essays in the collection he demonstrates that deep control is the freedom condition on moral responsibility In so arguing Fischer contends that total control is too much to ask it is a form of metaphysical megalomania So we do not need to trace back all the way to the beginning of the line or even farther in seeking the relevant kind of freedom or control Additionally he contends that various kinds of superficial control such as versions of conditional freedom and judgment sensitivity are too shallow they don't trace back far enough along the line In short Fischer argues that in seeking the freedom that grounds moral responsibility we need to carve out a middle ground between superficiality and excessive penetration Deep Control is the middle way Fischer presents a new argument

that deep control is compatible not just with causal determinism but also causal indeterminism He thus tackles the luck problem and shows that the solution to this problem is parallel in important ways to the considerations in favor of the compatibility of causal determinism and moral responsibility

Cashing in on God... What the Churches Don't Want You to Know About God, Jesus Christ And the Holy Bible Glenn Harrison,2006-03-01 God Jesus Christ the Holy Bible and the church are being tested God has decided to speak out after many years of silence There has been a conscious shift in the energies of our planet which is allowing the stranglehold of religion to weaken This has started a movement of a new belief by God God is no longer prepared to put up with the avarice and greed which has caused religion to use the word of God to manipulate people for power and control God is no longer prepared to allow mankind total free will to continue to self destruct and move further away from the spirituality that we were given The day of reckoning is approaching accelerated by mankind s material greed There is definately life after death but only for those who believe This book is set to Rock the Casbah with the shocking truth about the power and control of religion and the Holy Bible
