**Doing Without Free Will** Ursula Goldenbaum, Christopher Kluz, 2015 *Doing without Free Will* Spinoza and *Contemporary Moral Problems* introduces Spinoza into the contemporary discussion on free will and on moral problems surrounding this discussion Traditional Western moral philosophy for the most part has been built on the assumption of free will as a special human capacity to freely choose actions without being determined in that choice This idea draws increasing critique fueled recently especially by the ever new findings of neuroscience But how can we develop a moral philosophy without free will Spinoza faced a similar challenge when writing his *Ethics* during the rise of modern science and its deterministic model of nature and for this reason has much to offer the current discussion Not only does he provide a foundation for understanding moral responsibility without free will he also provides an explanation and solution to the classical problem of akrasia precisely because he argues the will is not free He worked out an entirely new system of moral philosophy that can help resolve the meta ethical dilemma between absolutism and relativism showing how moral values evolve naturally within society Despite denying the traditional God like power of free will Spinoza developed a robust concept of freedom one that is distinctly human and viable today His modernity comes to light when we look at his answers

to the much discussed questions whether it is possible or even desirable to develop objective instead of reactive attitudes toward our fellow human beings His answers perhaps surprisingly resemble positions held by some contemporary philosophers *Contemporary Moral and Social Issues*, 2014-04-15 *Contemporary Moral and Social Issues* is a uniquely entertaining introduction that brings ethical thought to life It makes innovative use of engaging topically oriented original short fiction together with classic and influential readings and editorial discussion as a means of helping students think philosophically about ethical theory and practical ethical problems Introduces students to ethical theory and a range of practical moral issues through a combination of key primary texts clear editorial commentary and engaging original fiction Includes discussion of topics such as world poverty abortion animals the environment and genetic engineering containing Facts and Factual Issues for each topic to give students an up to date understanding of related factual issues Uses immersive original short works of fiction as a means to engage students to think philosophically about serious ethical issues Sample Course Framework available **Today's Moral Issues** Daniel A. Bonevac, 2001 Suitable for contemporary moral problems courses this work provides theoretical readings related to the contemporary issues readings that follow students connect theory and practice thereby making the theory relevant It also lends a historical perspective with its inclusion of selections by philosophers such as Aristotle Kant and Locke Moral Reasoning Victor Grassian, 1981 Contemporary Moral Issues Lawrence M. White, 1994 Contemporary Ethical Issues Walter G. Jeffko, 2013-06-11 Now in a newly revised third edition this insightful exploration of contemporary ethical issues considers a series of compelling moral problems from a personalist perspective influenced by the Scottish philosopher John Macmurray 1891 1976 In many publications spanning

fifty years most notably his Gifford Lectures titled *The Form of the Personal* Macmurray developed a robust personalism that emphasizes the primacy of persons as rational agents In his view self realization is achieved in community where justice and individual rights are respected From the background of a liberal Roman Catholic Walter G Jeffko utilizes key elements of Macmurray s thought in developing his own philosophical viewpoint and he relates Macmurray s ideas to those of a wide variety of important philosophers ethicists and other notable thinkers including ecologists and war theorists New to this third edition is an essay on the moral treatment of civilians in war including a rigorous critique of Michael Walzer s supreme emergency and the communitarianism that grounds it Many recent Supreme Court decisions are evaluated as is the threat to our democracy posed by unlimited sums of money in politics the growing inequality of wealth and income and the rise of political extremism on the right and its threat to women s rights Jeffko brings logical precision and a lucid style to the study of ethics blending powerful scholarship with readability *Contemporary Moral Arguments* Lewis Vaughn,2010 Taking a unique approach that emphasizes careful reasoning this reader is structured around 28 key arguments that have provoked heated debates on current ethical issues Publisher description
