Appropriate Development For Basic Needs:

Development and Diffusionism J. Dibua, 2015-12-04 This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities Eurocentric diffusionism played a significant role in the failure of development planning

Security of Public Water Supplies Rolf A. Deininger, Peter Literathy, Jamie Bartram, 2012-12-06 The best of all things is water Pindar 460 B C The provision of secure drinking water for its citizens is an aim of every government and is a priority item to all the NATO and CP countries The quantity of water in most of these countries is usually adequate but the quality in many cases is not With the development of new analytical methods one suddenly finds new substances of human origin in drinking water Also new microorganisms and their toxins pass through the conventional treatment plants to show up in the finished water What aU of this means to public health is not quite clear at the moment but it seems that increased vigilance is necessary to provide safe drinking water to all citizens The NATO Advanced Research Workshop was organized to focus on five major areas of concern Inorganic contaminants focusing on arsenic and copper Organic contaminants focusing on petroleum products and insecticides and pesticides Biological bacteriological problems in raw water finished water and in the distribution system River water watch and surveillance systems The role of research the economics of privatization the support of international organizations This volume presents the papers that were delivered at the workshop over a period of four and one half days The workshop was attended by over 40 scientists government officials and academics from 20 NATO and CP countries

Perspectives on Development and Population Growth in the Third World O.G. Simmons, 2012-12-06 Until the early to mid 1970s social scientists in the fields of population and development were largely going their own ways Demographers relied almost exclusively on demographic transition theory as their para digm for understanding the role of development in population change and fertility decline Conversely most development economists and other specialists were certainly aware of the constraints placed upon development objectives by population growth However the main de velopment theories paid little attention to population and the implica tions of population growth

for development Indeed it was not until after the World Population Conference in Bucharest in 1974 that the interaction of population and development became a serious and positive theme for social scientific study Accordingly since about the mid 1970s an extensive literature in the field of population and development has been generated And in 1975 under the auspices of The Population Council the journal Population and Development Review was founded a journal which in the past decade has developed into the premier publication in the world for work in this area But our understanding of development as it refers to change in Third World countries remained fragmented Moreover our understanding of the linkages and interactions between population and development was very limited It is in this regard that Ozzie Simmons's Perspectives on Development and Population Growth in the Third World will certainly have an impact

The Dynamics of Development and Development Administration Kempe R. Hope, 1984-06-19 Kempe Ronald Hope provides for the first time a clear analysis and synthesis of economics and development administration as well as an appraisal of the problems associated with the application of these concepts in Third World nations Combining both theory and practice and providing concrete examples Hope begins by detailing the evolution of the concept of development from the inter war years through the 1950s when the expression Third World first emerged to the 1970s and the present when wholesale technology transfer and other new approaches emphasizing economic independence began to take precedence The chapters that follow chart the history of modern development administration focusing on important issues such as the role of the development administrator in the implementation of public policy the function of the public servant versus that of the politician bureaucracy in government and the increasing need for technical personnel to carry out development policies
