Reader's Guide to British History David Loades,2020-12-17 *The Reader's Guide to British History* is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication

The Rise and Fall of Modern Empires, Volume IV Martin Shipway,2016-12-05 The collection of essays in this volume offers an overview of scholarly approaches to the ways in which diverse actors representing the colonised or the colonising nations or indeed the international community reacted to colonialism during the lifetime of the modern colonial empires or in their aftermath The coverage is broad in terms of geographical scope and historical period with articles on the major colonial empires in Asia and Africa and the imperial centres of Paris London and Berlin from the conquests of the late nineteenth century to the period of decolonisation The selection also reflects recent academic trends by focusing on countries whose colonial past and experience of decolonisation have been studied and debated with particular intensity such as Algeria Kenya and India The volume draws on previously published articles and book chapters by leading international scholars writing in or translated into English and includes a critical introduction which situates each essay in relation to recent debates in this dynamic and expanding field of study

Race and Gender in Modern Western Warfare David Ulbrich,Bobby A. Wintermute,2018-12-03 This book fills a gap in the historiographical and theoretical fields of race gender and war In brief *Race and Gender in Modern Western Warfare* RGMWW offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts Focusing on the modern West this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians anthropologists sociologists and other scholars The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies ranging from the early nineteenth century to the Global War of Terror The purpose throughout is not merely to create a list of so called great moments in race and gender but to create a meta landscape in which readers can learn to identify for themselves the disjunctures flaws and

critical synergies in the traditional memory and history of a largely monochrome and male exclusive military experience The final chapter considers the current challenges that Western societies particularly the United States face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate RGMWW represents our effort to blend race gender and military war to problematize these intersections and then provide some answers to those problems

The History on Film Reader Marnie Hughes-Warrington,2009 Offers readers an introduction to just under 30 critical and representative writings on the relationship between film and history These writings represent a combination of insights from film theory cultural studies historiography the history of cinema and film promotion and reception

Negotiating the End of the British Empire in Africa, 1959-1964 Peter Docking,2021-12-02 This book examines conferences and commissions held for British colonial territories in East and Central Africa in the early 1960s Until 1960 the British and colonial governments regularly employed hard methods of colonial management in East and Central Africa such as instituting states of emergency and imprisoning political leaders A series of events at the end of the 1950s made hard measures no longer feasible including criticism from the United Nations As a result softer measures became more prevalent and the use of constitutional conferences and commissions became an increasingly important tool for the British government in seeking to manage colonial affairs During the period 1960-64 a staggering sixteen conferences and ten constitutional commissions were held for British colonies in East and Central Africa This book is the first of its kind to provide a detailed overview of how the British sought to make use of these events to control and manage the pace of change The author also demonstrates how commissions and conferences helped shape politics and African popular opinion in the early 1960s Whilst giving the British government temporary respite conferences and commissions ultimately accelerated the decolonisation process by transferring more power to African political parties and engendering softer perceptions on both sides Presenting both British and African perspectives this book offers an innovative exploration into the way that these episodes played an important part in the decolonisation of Africa It shows that far from being dry and technical events conferences and commissions were occasions of drama that tell us much about how the British government and those in Africa engaged with the last days of empire

Reader's Guide to British History D. M. Loades,2003 A masterful attempt to describe the historical secondary literature of the British Isles from prehistory to the present day the set is comprised of substantial essays of 1 000 to 3 000 words each on a wide array of subjects all written by pre eminent scholars in language accessible to beginning students and advanced researchers Each listed essay title is given a thorough annotation The Top 20 Reference Titles of the Year American Libraries May 2004
