Debating Values:

Debating Europe in National Parliaments Frank Wendler, 2016-06-27 This book investigates recent public debates about the European Union EU in national parliaments which have become the primary arena for public debate about the EU Responding to claims about a politicization of European governance the author investigates the link between two dimensions of debate the discursive justification and party political contestation of decision making in the EU Embedded in a comparison between the legislatures of four Member States Austria France Germany and the United Kingdom the main finding of the book is that generalizable links can be identified between the use of different argumentative frames and patterns of party political polarization These insights help to clarify the context conditions in which patterns of left right and government opposition politics are replaced by more atypical forms of polarization In a comparative perspective the author demonstrates that party political factors are a more relevant factor for variation than thematic or country specific cultural or institutional factors Case studies include debates on EU Treaty Reform the Eurozone crisis and EU enlargement Discovering the World Through Debate Robert Trapp, William Driscoll, 2005 Discovering the World through Debate provides a practical guide to educational debate in an international setting It offers a comprehensive introduction to the Karl Popper debate format and presents in depth step by step information on how to prepare and run a debate event The third edition has been completely revised and expanded to meet the needs of students who are ready to progress to new and more complex levels of argumentation and debate New chapters on argumentation promote a more complete examination of the process of argument construction and provide a thorough discussion of constructing arguments for and against various kinds of debate propositions As in previous editions the book presents practical illustrations to help users understand complex concepts
