Six Poets from the Mountain South John Lang,2010-04-20 In the most extensive work to date on major poets from the mountain South John Lang takes as his point of departure an oft quoted remark by Jim Wayne Miller Appalachian literature is and has always been as decidedly worldly secular and profane in its outlook as the region s traditional religion appears to be spiritual and otherworldly Although this statement may be accurate for Miller s own poetry and fiction Lang maintains that it does not do justice to the pervasive religious and spiritual concerns of many of the mountain South s finest writers including the five other leading poets whose work he analyzes along with Miller s Fred Chappell Robert Morgan Jeff Daniel Marion Kathryn Stripling Byer and Charles Wright Lang demonstrates all write poetry that explores sometimes with widely varying results what they see as the undeniable presence of the divine within the temporal world Like Blake and Emerson before them these poets find the supernatural within nature rather than beyond it They all exhibit a love of place in their poems a strong sense of connection to nature and the land especially the mountains Yet while their affirmation of the world before them suggests a resistance to the otherworldliness that Miller points to their poetry is nonetheless permeated with spiritual questing Dante strongly influences both Chappell and Wright though the latter eventually resigns himself to being simply a God fearing agnostic whereas Chappell follows Dante in celebrating the love that moves the sun and other stars Byer probably the least orthodox of these poets chooses to lay up treasures on earth rejecting the transcendent in favor of a Native American spirituality of immanence while Morgan and Marion find in nature what Marion calls a vocabulary of wonders akin to Emerson s conviction that nature is the language of the spiritual Employing close readings of the poets work and relating it to British and American Romanticism as well as contemporary eco theology and eco criticism Lang s book is the most ambitious and searching foray yet into the worlds of these renowned post World War II Appalachian poets

**Appalachia and Beyond** John Lang, 2006 The last quarter century has seen a remarkable outpouring of fiction and poetry from southern Appalachia a surge of creativity that has formed an integral part of a larger and still growing regional self consciousness This book charts the course of this literary renaissance through twenty one interviews with contemporary Appalachian writers conversations conducted between 1983 and 2003 at Emory Loyal Jones interviews Jim Wayne Miller Richard Marius interviews Wilma Dykeman George Garrett interviews David Huddle and Michael Chitwood interviews Michael McFee These wide ranging conversations address such topics as formative experiences in the author's childhood major literary influences the author's educational background and mentors the writing process the limitations imposed by such labels as Appalachian writer and the broadening scope of literature originating in the Appalachian region Collectively these interviews confirm the judgment of some observers that writers from the mountain South are now playing a much larger role in southern letters than in previous periods thus constituting a renaissance within a renaissance
