

A detailed still life painting of a banquet table. In the center, a large, ornate silver tureen is tipped over, spilling its contents. The table is set with various dishes, including a plate of bread, a glass of wine, and several pieces of fruit like apples and grapes. A red curtain hangs in the background, and a pair of glasses lies on the table. The scene is lit with warm, dramatic light, creating strong highlights and deep shadows.

Melamed, 2011-02-18 As the official publication of the American Bach Society Bach Perspectives has pioneered new areas of research in the life times and music of Bach since its first appearance in 1995 Volume 8 of Bach Perspectives emphasizes the place of Bach's oratorios in their repertorial context These essays consider Bach's oratorios from a variety of perspectives in relation to models antecedents and contemporary trends from the point of view of musical and textual types and from analytical vantage points including links with instrumental music and theology Christoph Wolff suggests the possibility that Bach's three festive works for Christmas Easter and Ascension Day form a coherent group linked by liturgy chronology and genre Daniel R Melamed considers the many ways in which Bach's passion music was influenced by the famous poetic passion of Barthold Heinrich Brockes Markus Rathey examines the construction and role of oratorio movements that combine chorales and poetic texts chorale tropes Kerala Snyder shows the connections between Bach's Christmas Oratorio and one of its models Buxtehude's Abendmusiken spread over many evenings Laurence Dreyfus argues that Bach thought instrumentally in the composition of his passions at the expense of certain aspects of the text And Eric Chafe demonstrates the contemporary theological background of Bach's Ascension Oratorio and its musical realization

Bach Perspectives, Volume 6 Gregory Butler, 2007-01-02 As the official publication of the American Bach Society Bach Perspectives has pioneered new areas of research in the life times and music of Bach since its first appearance in 1995 In a series long known for its major essays by leading Bach scholars and performers Bach Perspectives Volume 6 is no exception This volume opens with Joshua Rifkin's seminal study of the early source history of the B minor orchestral suite It not only elaborates on Rifkin's discovery that the work in its present form for

solo flute goes back to an earlier version in A minor ostensibly for solo violin but also takes this discovery as the point of departure for a wide ranging discussion of the origins and extent of Bach's output in the area of concerted ensemble music Jeanne Swack presents an enlightening comparison of Georg Phillip Telemann's and Bach's approach to the French overture as concerted movements in their church cantatas and Steven Zohn views the B minor orchestral suite from the standpoint of the concert en ouverture responding to Rifkin by suggesting that the early version of the B minor orchestral suite may also have been scored for flute
