Many an author has written a book on education without ever having stepped into a real classroom I have stepped into many classrooms many times over many years and now feel qualified to write my first book Having successfully survived as a teacher forty five years in the public and private sectors of both the New York and Nevada school systems prompted me to write this book a book packed with lessons that work school humor enrichment activities and sage advice ready to be used by anyone who desires to instill a love of learning in a child You may wish to do many of the lessons with your students Most of the text deals with activities based on beloved childrens books I have selected more than fifty childrens books I most enjoyed reading and teaching my students Although some of these books never achieved Newbery Medal award status each book teaches something of lifes lessons and each is a gem My first priority was selecting excellent childrens books I have selected a broad and diverse collection of childrens books with the hope that by using these books daily with all elementary school children each child can learn to love books and appreciate the extended benefits of lifelong literacy To give you a true flavor of what is covered a summary of each part follows Welcome to Pencils Down Part One School Humor You are reading this either because you are contemplating a career in teaching or are curious to find out whether a veteran teacher can still be sane after spending forty five years in the classroom Part One presents the humorous side to an otherwise serious profession You will get a glimpse of nineteenth and early twentieth century rules for teachers and peruse a copy of the contract teachers were made to sign Both will make you wonder why anyone would consider a career in education You will find out what teachers make and be privy to the publics low opinion of teachers salaries If you survive the reality show for educators you may continue reading the book School anecdotal incidents accrued from many years in the classroom will be shared You will learn why God created the teacher and will be introduced to the new school policy A test designed for preschoolers will challenge you Answers from kindergartners and first graders as to why we read and write will be sure to surprise and amuse you Actual student test answers and parental notes are included both good for a chuckle The difference between an educator and a teacher will be clarified Todays schools vs schools in the 50s and 60s will make you wish you were teaching in a simpler era and make you wonder if schools are still teaching math An Australian schools answering machine will make you smile as will the eleven things you did not and will not learn in school Part Two Getting to Know You Getting to know you Getting to know all about you
