Chinese Mask

Herbert Mueller

Chinese Mask:

Chinese History Endymion Porter Wilkinson, 2000 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China. In this latest edition, now in a bigger format, its scope has been dramatically enlarged by the addition of one million words of new text. Twelve years in the making, the new manual introduces students to different types of transmitted, excavated, and artifactual sources from prehistory to the twentieth century. It also examines the context in which the sources were produced, preserved, and received, the problems of research and interpretation associated with them, and the best, most up-to-date secondary works. Because the writing of history has always played a central role in Chinese politics and culture, special attention is devoted to the strengths and weaknesses of Chinese historiography.

Performance Across Chinese Borders Wei Zhang, 2024-12-31 This book examines the dynamic intermingling of Asian performance of theatre and dance across the borders of the ancient Silk Road, which connected China with cultures and countries throughout Asia and beyond. Revealing the dynamic interweaving of cultures between China and its neighbors from the time of the ancient Silk Road to modern times, the book demonstrates how such interweaving has been reflected and embodied in the performance forms and genres of East South and Southeast Asia. Through individual explorations of the artistic expressions in these Asian countries, the book reveals the transformative impact of the dissemination and interfusion of religion, beliefs, and cultural practices on the development of performance arts genres in Asia. The book effectively displays how this robust interfusion across borders left a profound and indelible imprint on the various forms of artistic expression. Representing a succinct analysis of the thousands of years of intercultural cross-fertilization and diffusion across borders of the performing arts in Asia, this book makes an important contribution to transcultural studies in theatre, dance, performance, and literature.

American Paradiplomacy and Chinese Power Czeslaw Tubilewicz, 2024-12-31 This book investigates contemporary US-China subnational relations and considers the extent to which subnational, national, and international power contests inform American states' strategies of internationalization. Approaching the subject from a constructivist perspective, the book contributes to debates about the relevance of subnational diplomacy to US politics, diplomacy, and security. It evaluates the efficacy of Chinese power through influence and interference in co-opting American subnational elites, re-framing their, and the wider public's, social knowledge about China, and re-shaping the interests, norms, and practices guiding relations with China. The book also identifies the limits of Chinese power by exploring how a shift in dominant narratives produces new understandings of opportunities and risks associated with China. Featuring new empirical evidence and a novel theoretical framework, this book will be a valuable resource for students of American politics and foreign relations, paradiplomacy, federal studies, China studies, and international relations.
