deforestation Regulations it is argued are necessary to restrict the destructive use of forests by the people especially the forest dwellers Contrary to this argument environmentalists blame the corrupt and selfish behaviour of bureaucrats for the damage done to the forests Despite of an extensive legal network nation continues to lose more than one million hectares of forests each year This book provides an statistical analysis of the causes of deforestation in India states After assessing the influence of several independent variables political economic bureaucratic and demographic on deforestation the study concludes that the bureaucracy indeed has failed in its regulatory role
