Historical Notes, 1509-1714 Francis Sheppard Thomas, 1856 Holbein's "Ambassadors", the Picture and the Men Mary Frederica Sophia Hervey, 1900 Henry James Jeanne Delbaere-Garant, 2013-05-22 Both James's life and his literary career might be figured as a double spiral rooted at the one end in the American soil and in romanticism contracting in its middle on contact with France and French naturalism and expanding again into the Anglo Saxon world and into the twentieth century. The spiral which also suggests the artist's indirect approach to reality strikes me as an adequate symbol for Henry James. From Bramante's ramp in the Vatican to F L Wright's in the Guggenheim Museum it has always been the favourite shape of all those who claimed greater freedom for the artist rejected the fixity of academic rules and were convinced that art like the spirit of man is capable of endless progress.

The Ambassador and the Courtesan Paola De Santo, 2026-02-10 Drawing on literature, legal texts and archival materials *The Ambassador and the Courtesan* offers a comparative analysis of these two emerging roles in the early modern period and in Renaissance Italian society. While these two figures may appear unrelated, this book demonstrates their shared relation to the body politic including the relationship of their very bodies to that metaphorical body. One imagines the early modern ambassador as traveling from one center of power to another gathering news and disseminating it in writing as well as negotiating in person. The courtesan in contrast is normally imagined employing her body in the service of entertaining elite clients in the enclosed space of the urban salon. These characterizations reinforce their very different roles in Renaissance Italian society and culture but by placing them in dialogue salient points of convergence emerge detailing how they were integral to the concurrent emergence of a modern subjectivity of the individual and the formation of the modern state.

Generous Mistakes Michael Anesko, 2017 Michael Anesko explores Henry James's efforts to correct mistakes that he later perceived in his books as first printed. He focuses on two of Henry James's most important texts *The Portrait of a Lady* 1881 and *The Ambassadors* 1903 and the ways in which both betray in very peculiar ways the fallibility of James himself.
