Look at the relativistic correction. It is of the form:  $(1-\beta^2)^{1/2}$  and  $1-\beta^2=(1+\beta)(1-\beta)$ . This is the geometric mean or the product of the increase and the decrease in the power of god and the devil. Since god is reducing-- decrease there.

The correction is dependent upon  $\beta^2$ , since the term dependent upon  $\beta$  cancels. Why does it cancel-- the decrease and increase are equal and opposite in nature!

This can be explained in terms of mountains and seas. When there was the biblical flood, land was level initially but then some got depressed further forming trenches in the seas and some became mount arafat or example!

Was it arafat or sinai-- i do not know. But i have explained it.

In general in my derivation for half lie and half truth, the two terms are unequal by the ratio of rate constants. So these are generalizations of increase and decrease in god and devil where they can be unequally affected!
