

MATH 134: Calculus II

Spring 2023

Oberlin College

Lectures:

MTuWPF, 10:00–10:50 AM

King 327 (location likely to change)

Instructor:

Nathan Gray

ngray@oberlin.edu

King 204

Office Hours: TBA

Note: In general, I will respond to emails between 8:00 AM and 6:00 PM, Monday–Friday. If you write to me at other times, it may take me longer to respond.

Prerequisites: MATH 132, MATH 133, or comfort with the material from MATH 133 (even if you do not have Oberlin credit) is required. If you are comfortable with the material from this course already, then you should instead take MATH 220 or MATH 231.

Textbook: *Calculus, Volume 2* from OpenStax, 2016. The book is freely available at <https://openstax.org/details/books/calculus-volume-2>. Print copies may be purchased.

Course Description: Calculus is one of the greatest achievements of human thought, worthy of study in its own right, yet it also is the essential language of technical applications (e.g., biology, economics, physics, political science, psychology). It is the study of how quantities change. We model quantities by using functions (such as polynomial, rational, exponential, logarithmic, and trigonometric functions), and we apply techniques of calculus to study such functions.

This is the second of two semester-long courses in single-variable calculus. The first course (MATH 133) introduced our two main tools: the derivative and the definite integral. This second course uses those two tools in both mathematics and applications. The main topics include:

- (Chapter 1 — review) integration
- (Chapter 2) applications of integration
- (Chapter 3) techniques of integration; l'Hospital's rule and indeterminate forms; improper integrals
- (Chapter 4) introduction to ordinary differential equations
- (Chapter 5) sequences; infinite series
- (Chapter 6) power series
- (Chapter 7) parametric equations; polar coordinates.

Course Load: Oberlin College complies with federal regulations defining a credit hour. In this course, all students are expected to have 12 hours per week of academically engaged time throughout the semester. This amounts to 9 hours per week of additional academic work outside of lectures.

Custom Published Math 134

Sham Bhangal, Kristian Besley

Custom Published Math 134:

Marketing Thirteenth Edition, Custom Publication Pride, William M. Pride, 2005-02 **Foundation Flash 8** Sham Bhangal, Kristian Besley, 2006-11-07 Foundation Flash 8 is the book you need if you're looking for a solid foundation in Flash 8 Basic and Flash 8 Professional. Thousands upon thousands of designers have already learned from its previous editions and it's easy to understand why. The fourth edition of friends of ED's legendary beginner Flash book Foundation Flash 8 uses a series of structured exercises and detailed discussions to help you start your exploration of Flash. The detailed tutorial style will ensure that you retain the knowledge you gain and are able to draw upon it throughout your Flash career. Foundation Flash 8 features a running case study that evolves into a fully functional Flash website as you work through the tutorials so you'll immediately see everything that you learn being used in a practical project. This book focuses on the core skills that you need to get started working with Flash 8: understanding the interface, becoming familiar with the creative tools and their capabilities, grasping the relationships between the different components that make up a Flash movie, and getting insight into how to put all the pieces together to create your own Flash-based website. *The Diplomatic Enlightenment* Edward Jones Corredera, 2021-08-30 This book reconfigures the study of the origins of the Enlightenment in the Spanish Empire. Challenging dominant interpretations of the period, this book shows that early eighteenth-century Spanish authors turned to Enlightenment ideas to reinvent Spain's role in the European balance of power. And while international law grew to provide a legal framework that could safeguard peace, Spanish officials, diplomats, and authors, hardened by the failure of Spanish diplomacy, sought instead to regulate international relations by drawing on investment, profit, and self-interest. The book shows on the basis of new archival research that the Diplomatic Enlightenment sought to turn the Spanish Empire into a space for closer political cooperation with other European and non-European states and empires. **Literary Market Place**, 1999-10 **Carnegie Institution of Washington Publication**, 1913 **LMP 2007**, 2006 Volume 1 covers core publishing industry information: book publishers, editorial services, and agents; associations, events, courses, and awards; and books and magazines for the trade. Volume 2 contains information on service providers and suppliers to the publishing industry: advertising, marketing, and publicity; book manufacturing, sales, and distribution; and services and suppliers. can be found in this volume. Entries generally contain name, address, telephone, and other telecommunications data; key personnel; company reportage; branch offices; brief statistics; and descriptive annotations. Where applicable, Standard Address Numbers (SANs) have been included. SANs are unique numbers assigned to the addresses of publishers, wholesalers, and booksellers. Publishers' entries also contain their assigned ISBN prefixes. *Among Our Books* Carnegie Library of Pittsburgh, 1927 **College Mathematics II** Robert Blitzer, Brian K.
