Adams Task Calling Animals By Name:

Adam's Task Vicki Hearne,2007-03 Have you ever watched a horse flick her tail or had a dog greet you at your door and known in your heart that the animal was exhibiting something more than simple instinctual responses If so you must read this *To Make the Hands Impure* Adam Zachary Newton,2016-01-01 How can cradling handling or rubbing a text be said ethically to have made something happen What as readers or interpreters may come off in our hands in as we maculate or mark the books we read For Adam Zachary Newton reading is anembodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard With the image of the book lying in the hands of its readers as insistent refrain *To Make the Hands Impure* cuts a provocative cross disciplinary swath through classical Jewish texts modern Jewish philosophy film and performance literature translation and the material text Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad's *Nostromo* and Pascal's *Le Mémorial* from works by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana Cuba In separate chapters he conducts masterly treatments of Emmanuel Levinas Mikhail Bakhtin and Stanley Cavell by emphasizing their performances as readers a trebled orientation to Talmud novel and theater film *To Make the Hands Impure* stages the encounter of literary experience and scriptural traditions the difficult and the holy through an ambitious singular and innovative approach marked in equal measure by erudition and imaginative daring *Humans and Other Animals in Eighteenth-Century British Culture* Frank Palmeri,2020-07-09 Combining historical and interpretive work this collection examines changing perceptions of and relations between human and nonhuman animals in Britain over the long eighteenth century Persistent questions concern modes of representing animals and animal human hybrids as well as the ethical issues raised by the human uses of other animals From the animal men of Thomas Rowlandson to the part animal part human creature of Victor Frankenstein hybridity serves less as a metaphor than as a metonym for the intersections of humans and other animals The contributors address such recurring questions as the implications of the Enlightenment project of naming and classifying animals the equating of non European races and nonhuman animals in early ethnographic texts and the desire to distinguish the purely human from the entirely nonhuman animal *Gulliver's Travels* and works by Mary and Percy Shelley emerge as key texts for this study The volume will be of interest to scholars and students who work in animal colonial gender and cultural studies and will appeal to general readers concerned with the representation of animals and their treatment by humans [Thinking about Animals in the Age of the Anthropocene](#) Morten Tønnessen,Kristin Armstrong Oma,Silver Rattasepp,2016-04-13 The term Anthropocene the era of mankind is increasingly being used as a scientific designation for the current geological epoch This is because the human species now dominates ecosystems worldwide and affects nature in a way that rivals natural forces in magnitude and scale *Thinking about Animals in the Age of the Anthropocene* presents a dozen chapters that address the role and place of animals in this epoch characterized by anthropogenic human made environmental change While some

chapters describe our impact on the living conditions of animals others question conventional ideas about human exceptionalism and stress the complex cognitive and other abilities of animals The Anthropocene idea forces us to rethink our relation to nature and to animals and to critically reflect on our own role and place in the world as a species Nature is not what it was Nor are the lives of animals as they used to be before mankind's rise to global ecological prominence Can we eventually learn to live with animals rather than causing extinction and ecological mayhem

Dogs Save Katharine Mershon, 2026-04-21 Stories about people and dogs saving one another are everywhere in US culture on TV in Hollywood movies on social media and even on bumper stickers Yet these seemingly heartwarming stories of mutual rescue revolve around redemption through suffering a narrative profoundly interwoven with Christian beliefs white racial anxieties and US national myths Katharine Mershon examines the unacknowledged religious underpinnings of stories about dogs revealing deeply rooted cultural assumptions about who can be saved and how redemption ought to occur She identifies the canine redemption narrative as the defining cultural script for the stories people in the United States tell about dogs and in turn the nation Exposing unexamined assumptions about the relationships between people and dogs Mershon sheds light on the central place of animals and religion in defining racial boundaries Dogs Save considers examples including the Michael Vick dogfighting case Samuel Fuller's controversial B movie White Dog the TV show The Dog Whisperer from the celebrity dog trainer Cesar Millan Laurie Anderson's film Heart of a Dog and Eileen Myles's Afterglow a dog memoir Bringing together religious studies and animal studies this book shows that redemption narratives shape who is allowed to survive and thrive in US society

The Politics of Virtue Elizabeth Mensch, Alan Freeman, 1993 Fiercely committed to the separation of church and state thoroughly pluralistic largely secular Where does a society like ours find common terms for conducting a moral debate In view of the crises surrounding the issue of abortion it is tempting to answer nowhere In this timely and provocative book Elizabeth Mensch and Alan Freeman urge that we challenge the extremes of both the pro life and pro choice views of the abortion issue and affirm the moral integrity of compromise Attempting to restore a level of complexity to the discussion and to enrich public debate so that we may move beyond our current impasse the authors argue that it is essential to understand how issues of legal rights and theological concerns interact in American public debate Returning to the years leading up to Roe v Wade Mensch and Freeman detail the role of religion and its relationship to the emerging politics of abortion Discussing primarily the natural law tradition associated with Catholicism and the Protestant ethical tradition the authors focus most sharply on the 1960s in which the present terms of the abortion debate were set In a skillful analysis they identify a variety of factors that directed and shaped the debate including among others the haunting legacy of Nazism the moral challenge of the civil rights movement the God is dead discourse school prayer and Bible reading Harvey Cox s The Secular City the Berrigans and Vietnam the animal rights movement and the movement of the church going population away from mainstream Protestant tradition toward evangelical

fundamentalism By criticizing the rhetoric employed by both the pro choice and pro life camps Mensch and Freeman reveal the extent to which forces on either side of the issue have failed to respond to relevant concerns Since Roe v Wade the authors charge public debate has seemed to concede the moral high ground to the pro life position while the pro choice rhetoric has appeared to defend an individual s legal right to do moral wrong Originally published as a special issue of The Georgia Law Review Spring 1991 this revised and expanded edition will be welcomed by all those frustrated by the impasse of debates so central to our nation s moral life
