Reading-thinking Skills Ethel S. Maney, 1965 *Minnesota Journal of Education*, 1930 Agricultural Education, 1930 Industrial Management John R. Dunlap, 1920 **Reasonable Children** Michael S. Pritchard, 1996 The public

outcry for a return to moral education in our schools has raised more dust than it s dispelled Building upon his provocative ideas in *On Becoming Responsible* Michael Pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education *A Guide to Thinking* Olin Templin, Anna D. McCracken, 1927 *Proceedings of the ... Annual Meeting* Society for the Promotion of Engineering Education (U.S.). Annual Meeting, 1930 **Thinking and Learning to Think** Nathan Christ Schaeffer, 1900

Actionable Learning Terrence Morrison, 2001 *Psychology*, 1929 **The Teachers Journal and Abstract**, 1926
