Contextual and Crosslinguistic Facets of Emotion Concepts Liane Ströbel,2023-07-12 Emotions permeate every aspect of our lives and not only provide us with invaluable information about our environment and the people in it but also influence our perception of situations and events Interestingly this domain so ubiquitous in our everyday lives largely resists attempts at scientific definition One reason for this could be that emotions rarely occur in isolation but are usually combined or embedded in other states of mind Moreover the experience of emotions may be influenced not only by culture but also by individual language Analysis is further complicated by the fact that emotions are abstract and require complex linguistic coding to make an invisible emotional state of the speaker at least rudimentarily visible to the listener For this reason the present volume aims to investigate the perception encoding reception and influence potential of emotions in context and across languages using different corpora The following questions are central To what extent do emotions influence our perception of events and facts and To what extent can emotion concepts be defined language specifically but also universally on the basis of our perception Therefore the eight contributions analyze emotions in different contexts and from different starting points to uncover the cognitive mechanisms underlying the perception and influence of emotion concepts The first four papers focus primarily on emotional

and sensory experiences and interactions that are set in motion when we are confronted with emotions while the following four focus on the different facets of emotion across languages to show which emotion concepts are language specific or universal and thus contribute to a better understanding of this complex field

MOTIVOS Y TÓPICOS AMATORIOS CLÁSICOS EN EL AMOR EN LOS TIEMPOS DEL CÓLERA Manuel Cabello Pino, 2018-04-25 A lo largo de nuestro trabajo se ha llevado a cabo un riguroso análisis de la presencia en El amor en los tiempos del cólera de motivos y tópicos amorosos procedentes todos ellos en última instancia de la tradición clásica. Dicho análisis ha presentado una doble vertiente por un lado se ha estudiado la forma que presentan esos motivos y tópicos en la novela de Gabriel García Márquez comparando en cada caso la recreación que hace el novelista colombiano de cada uno de ellos con la forma originaria que estos presentaban en la tradición de la literatura grecolatina. Así se ha determinado en cada caso en qué aspectos se mantiene García Márquez fiel a la tradición del tópico y en qué otros aspectos subvierte dicha tradición. En definitiva se ha estudiado el binomio tradición y originalidad en la recreación de cada uno de esos tópicos que realiza el novelista colombiano en su obra. Por otro lado se ha determinado qué función real cumple cada uno de esos tópicos en la novela y el grado de importancia que tiene cada uno de ellos en el desarrollo de la trama. Así se ha demostrado claramente que existen tres tópicos dentro de El amor en los tiempos del cólera que tienen un peso específico mucho mayor que el resto ya que su constante presencia a lo largo de la novela los convierte en motivos dentro de la misma con una función no sólo temática sino además estructural. La estructura interna de la novela descansa sobre estos tres motivos principales que son la enfermedad de amor, la erotodidaxis o enseñanza del amor y la fidelidad entre los amantes. Aparte de estos tres motivos fundamentales en la novela García Márquez recurre a infinidad de tópicos amorosos para caracterizar las relaciones entre su trío protagonista y al igual que con los motivos lo hace combinando tradición e innovación. En definitiva lo que ha demostrado este trabajo es que con respecto a la concepción literaria del amor en su novela García Márquez demuestra que sabe perfectamente dónde está es decir toda la tradición anterior de los tópicos amorosos clásicos y hacia dónde quiere llevarla su visión personal de la misma. Así García Márquez no se deja subyugar por toda esa tradición anterior y consigue resultar original a pesar de tratar tópicos tan utilizados como la metáfora del amor como enfermedad, la erotodidaxis o la fidelidad entre los amantes.
