of Wagner's stay in Zurich from 1849 to 1858 a period often discounted by scholars on his career. When the people of Dresden rose up against their king in May 1849, Richard Wagner went from Royal Kapellmeister to republican revolutionary overnight. He gambled everything but the rebellion failed and he lost all. Now a wanted man in Germany, he fled to Zurich. Years later he wrote that the city was devoid of any public art form and full of simple people who knew nothing of my work as an artist. But he lied. Zurich boasted arguably the world's greatest concentration of radical intellectuals and a vibrant music scene. Wagner was accepted with open arms. This book investigates Wagner's affect on the musical life of the city and the city's impact on him. Mathilde Wesendonck emerges not as Wagner's passive muse but as a self-assured woman who exploited gender expectations to her own benefit. In 1858, Wagner had to flee Zurich after again gambling everything this time on Mathilde and again losing. But it was in Zurich that Wagner wrote his major theoretical works, composed *Das Rheingold*, *Die Walküre*, and parts of *Siegfried* and *Tristan und Isolde*, first planned *Parsifal*, held the first festival of his music, and conceived of a theater to stage his own works. If Wagner had been free in 1849 to choose a city in which to seek heightened intellectual stimulation among the like-minded and the similarly gifted, he could have come to no more perfect place. Chris Walton teaches music history at the Musikhochschule Basel in Switzerland. He is the recipient of the 2010 Max Geilinger Prize honoring exemplary contributions to the literary and cultural relationship between Switzerland and the English-speaking world.

Foreign Language Teaching and Learning in Chinese Higher Education: Emerging Challenges Wei Xu, Wu Ping, Priscilla Roberts, 2025-10-21. The teaching and learning of foreign languages such as English, Japanese, French, Portuguese, Arabic, etc. have become increasingly important in Chinese higher education over the past decade. The application of traditional educational concepts and approaches to the increasingly diverse contexts of foreign language education in the globalized world has created deep-seated tensions and challenges for Chinese universities. Research has previously examined the relationship between teaching methods and student performance as well as the impact of globalization on foreign language pedagogy in China. As part of the development of foreign language education, a variety of educational settings have faced culturally specific challenges. These challenges include the need to adapt to evolving technologies, the changing needs of learners, and the changing demands of the job market, etc. China's large population and diverse culture have necessitated the development of effective teaching methods and materials for foreign language instruction. **Schwann Spectrum** Schwann Publications, Schwann Publications Staff, 1996-11. *Saint of the Narrows Street* William Boyle, 2025-02-04.
