In today s economic climate many libraries are work cooperatively and sharing facilities staffs and resources This book gives
you practical examples of how to make joint use a POSITIVE reality The first book of its kind Joint Use Libraries presents
nine examples of situations in which libraries of different types share a building In some cases one library takes the lead and
staffs the operation In other cases two or more staffs inhabit the same building and divide the work This essential book
illustrates the variety of ways that public libraries community college libraries and college university libraries have found to
stretch their resources and better serve their users This book explores team based strategies for joint use libraries and shows
how various libraries have addressed questions such as Which library s online catalog will be used How will costs for

maintenance and utilities be shared and Will there be one integrated staff or separate staffs inhabiting the same building The libraries described range from a very small library shared by Front Range Community College and the City of Fort Collins Colorado to a mammoth new joint library now being built in San Jose California In Joint Use Libraries you ll encounter fascinating case studies of successful joint use that examine school libraries that double as public library facilities a county wide public library system in South Florida that has created partnerships with university community college public and private school libraries a joint library located on a Florida community college campus but also serving a major university another joint library on a Washington state campus that is shared by both a university and a community collegewith the university acting as primary provider of library services by contract with the community college a three way library in which a community college a university and a public library provide their own staffing collections and other resources to offer services in a small community where none of them alone could afford a first rate facility a complex situation in which St Petersburg College and the City of Seminole Florida are building a joint use facility which will serve not only the city and the college but will also serve the students of 14 other institutions of higher education a joint use library where one institution is clearly the senior partner but a largely new integrated staff has been hired to minimize resistance to the new joint mission and to serve all users equally and more
