Rawkins Martin Rudner and Jean Philippe Th rien *Cross Currents in Europe To-day* Charles Austin Beard,1922 **A Decade of Human Security** David R. Black,2016-03-03 Human security has been advanced as an alternative to traditional state based conceptualizations of security yet controversies about the use and abuse of the concept remain Investigating innovations in the advancement of the human security agenda over the past decade this book identifies themes and processes around which consensus for future policy action might be built It considers the ongoing debates regarding the human security agenda explores prospects and projects for the advancement of human security addresses issues of human security as emerging forms of new multilateralisms and examines claims that human security is being undermined by US unilateralisms This comprehensive volume explores the theoretical debate surrounding human security and details the implications for practical application It will prove ideal for students of international relations security studies and development studies [Korea in the Cross Currents](#) R. Myers,2001-05-03 The Korean peninsula underwent a continuous number of earth shaking events in the twentieth century although it is generally out of the earthquake zone Jutting off the extreme northeast edge of the Eurasian landmass and with a combined population of nearly seventy million people North and South Korea are situated among China Japan and Russia They are also profoundly influenced by the United States because of the circumstances of the Korean War 1950 1953 The issues of war and peace left over from the Korean war remain unresolved these two separate states are the residue of the Cold War This anomaly still poses ominous prospects for war or peace in Asia and American national security interests Focusing on the last hundred years of Korea s long history and its particular relationship with China one is in a position both to understand and marvel at the events of this century on the Korean peninsula At the same time the complexity of the division of the country into North and South Korea not just a perennial struggle between good and evil although that is certainly part of the story places the future at risk There was one terrible war that divided the 20th century in half and there are threats of more trouble to come This study of the history of the past century will provide some answers and open the way to informed speculations *Standard* ,1922 **The International Relations of the Chinese Empire** Hosea Ballou Morse,1918 **Moral Accountability and International Criminal Law** Kirsten Fisher,2013-03-01 This book examines international criminal law from a normative perspective and lays out how responsible agents individuals and the collectives they comprise ought to be held accountable to the world for the commission of atrocity The author provides criteria for determining the kinds of actions that should be addressed through international criminal law Additionally it asks and answers how individual responsibility can be determined in the context of collectively perpetrated political crimes and whether an international criminal justice system can claim universality in a culturally plural world The book also examines the function of international criminal law and finally considers how the goals and purposes of international law can best be institutionally supported This book is of particular interest to a multidisciplinary academic audience in political science philosophy and law however the book is

written in clear jargon free prose that is intended to render the arguments accessible to the non specialist reader interested in global justice human rights and international criminal law The Standard ,1921 **Cross Currents** Gi-Wook Shin,Daniel C. Sneider,2007 Northeast Asia stands at a turning point in its history The key economies of China Japan and South Korea are growing increasingly interdependent and the movement toward regionalism is gaining momentum Yet interdependency often set in a global context also spurs nationalism in all three countries and elsewhere in East Asia Northeast Asia today feels the presence of all three complex forces national regional and global connecting competing and colliding in myriad ways The authors of this book assess current interactions of national and regional forces in Northeast Asia in the context of U S presence in the region These seemingly contradictory forces must be considered together the sparks they generate have important policy implications for the United States and for the region as a whole Constructive reformulation of these interactions is one of Northeast Asia s most pressing contemporary challenges *Annual Report - Harvard University, Center for International Affairs* Harvard University. Center for International Affairs,1993 **The International Relations of the Chinese Empire ... With Illustrations, Maps, and Diagrams** Hosea Ballou Morse,1918 **Year Book** Daughters of the American Revolution.
