

ASSESSING GRAMMAR

- In term of assessment, grammar is central to language description and test taker performance. Today, the knowledge of grammar is evaluated by its correct use in communication through listening, speaking, reading, and writing in second language.
- Communicative competence has four components: grammatical, sociolinguistic, discourse, and strategic competence. Grammatical knowledge consist of three elements;

a) Grammatical forms or the structures of a language.

Form is both morphology or how words are formed, and syntax, how words are strung together, both of them are concerned with the linguistic accuracy of language.

b) The grammatical meaning of those forms.

Grammatical meaning consists of both the literal and intended message that is conveyed by the form. It concerned with the meaningfulness of the language used.

c) Their pragmatic meaning or use in a given context.

The pragmatic or implied meaning results from the appropriate language choices a learner makes in a given communicative event.
