**Countdown to Zero Day** Kim Zetter, 2015-09-01 A top cybersecurity journalist tells the story behind the virus that sabotaged Iran's nuclear efforts and shows how its existence has ushered in a new age of warfare one in which a digital attack can have the same destructive capability as a megaton bomb Immensely enjoyable Zetter turns a complicated and technical cyber story into an engrossing whodunit The Washington Post The virus now known as Stuxnet was unlike any other piece of malware built before Rather than simply hijacking targeted computers or stealing information from them it proved that a piece of code could escape the digital realm and wreak actual physical destruction in this case on an Iranian nuclear facility In these pages journalist Kim Zetter tells the whole story behind the world's first cyberweapon covering its genesis in the corridors of the White House and its effects in Iran and telling the spectacular unlikely tale of the security geeks who managed to unravel a top secret sabotage campaign years in the making But Countdown to Zero Day also ranges beyond Stuxnet itself exploring the history of cyberwarfare and its future showing us what might happen should our infrastructure be targeted by a Stuxnet style attack and ultimately providing a portrait of a world at the edge of a new kind of war

Rule of Law and Professor of Public Health Efthimios Parasidis, Efthimios Parasidis, 2025 America's Military Biomedical Complex traces how laws and ethical codes have co-evolved with America's military science pursuits. It vividly illustrates how the drive for scientific and military superiority has led to transformational achievements in medicine and science, demonstrating how these endeavors have shifted the moral compass of government and society. Along with comprehensive historical analysis, the book introduces the concept of *ius in praeparatione bellum* (justice in war preparations) and recommends policies that balance national security priorities with fundamental principles of justice and human dignity.
