*Intelligent Help Systems for UNIX* Stephen J. Hegner, Paul Mc Kevitt, Peter Norvig, Robert L. Wilensky, 2012-12-06 In this international collection of papers there is a wealth of knowledge on artificial intelligence AI and cognitive science CS techniques applied to the problem of providing help systems mainly for the UNIX operating system The research described here involves the representation of technical computer concepts but also the representation of how users conceptualise such concepts The collection looks at computational models and systems such as UC Yucca and OSCON programmed in languages such as Lisp Prolog OPS 5 and C which have been developed to provide UNIX help These systems range from being menu based to ones with natural language interfaces some providing active help intervening when they believe the user to have misconceptions and some based on empirical studies of what users actually do while using UNIX Further papers investigate planning and knowledge representation where the focus is on discovering what the user wants to do and figuring out a way to do it as well as representing the knowledge needed to do so There is a significant focus on natural language dialogue where consultation systems can become active incorporating user modelling natural language generation and plan recognition modelling metaphors and users mistaken beliefs Much can be learned from seeing how AI and CS techniques can be investigated in depth while being applied to a real test bed domain such as help on UNIX **White Space Van Man**

Darren Worrow, 2013-07-30 There ain't no pleasing some people Take Barry for example most of us would be content soaring through the cosmos in a spacecraft but for our pasty addicted antihero white space van pilot it's nothing more than mundane Delivering medical supplies to faraway colonies his employment is also his curse He only dedicates effort to skiving and generally loathing his job it is the English way His obnoxious and selfish employers depress him his family ignore him his colleagues assist his irritation with merciless banter and even the onboard computer drives him up the wall across the ceiling and out through the sunroof Little wonder then Barry yearns for change He waits for something to slap in the chops and guide him to it rather than motivate himself to act on the reverie But when it transpires and adventure ensues well Barry still whinges like a stuck Pat Boone record But it is a Tuesday he's only supposed to go as far as Io *Love and Bullets* Hannah

Howe,2015-02-14 It had been a week since the incident at the abandoned quarry a week since I d shot and killed someone a week since my ex husband had been murdered It had been an emotional week But life goes on I d been hired to discover who was sending death threats to Dr Ruth Carey a controversial psychiatrist The trail led to two high powered villains and soon the death threats were aimed at me threats that increased following two murders Meanwhile after years of domestic violence I was trying to make sense of my private life Dr Alan Storey a prominent psychologist claimed that he loved me and I was strongly attracted to him But the years of domestic abuse had scarred me emotionally and I was reluctant to commit to a relationship Love and Bullets is the story of a dramatic week in my life a week of soul searching self discovery and redemption
