Civilization Transcendence:

Civilization and Transcendence His Divine Grace A. C. Bhaktivedanta Swami Prabhupada, 1990-01-01 In June 1976 Bhavan's Journal a Bombay cultural and religious magazine sent various religious and spiritual leaders a questionnaire looking for enlightened answers to some of the perplexing questions of the day such as the place of religion in modern society One recipient of their questionnaire was Srila Prabhupada who took the opportunity to make a thorough presentation of the ideal Vedic civilization show the faults of modern society from the viewpoint of transcendence and offer practical solutions based on Krishna conscious teachings His answers to the questionnaire were later compiled and published in this compact and lively book **Civilization and Transcendence** A. C. Bhaktivedanta Swami Prabhupāda, 2011 *Being After Rousseau* Richard L. Velkley, 2002-04-02 In *Being after Rousseau* Richard L Velkley presents Jean Jacques Rousseau as the founder of a modern European tradition of reflection on the relation of philosophy to culture a reflection that calls both into question Tracing this tradition from Rousseau to Immanuel Kant Friedrich Schelling and Martin Heidegger Velkley shows late modern philosophy as a series of ultimately unsuccessful attempts to resolve the dichotomies between nature and society culture and civilization and philosophy and society that Rousseau brought to the fore The Rousseauian tradition begins for Velkley with Rousseau's criticism of modern political philosophy Although the German Idealists such as Schelling accepted much of Rousseau's critique they believed unlike Rousseau that human wholeness could be attained at the level of society and history Heidegger and Nietzsche questioned this claim but followed both Rousseau and the Idealists in their vision of the philosopher poet striving to recover an original wholeness that the history of reason has distorted Proceedings of the 4th Annual International Conference on Language, Literature and Media (AICOLLIM 2022) Rohmani Nur Indah, Miftahul Huda, Irham Irham, Muzakki Afifuddin, Masrokhin Masrokhin, Deny Efita Nur Rakhmawati, 2023-03-14 This is an open access book AICoLLiM is the annual conference on the area of language literature and media It provides a forum for presenting and discussing the expanding paradigm latest innovations results and developments in language literature and media The conference provides a forum for lecturers students researchers practitioners and media professionals engaged in research and development to share ideas interact with others present their latest works and strengthen the collaboration among academics researcher and professionals *Beyond Superlatives* Roland Faber, J. R. Hustwit, Hollis Phelps, 2014-04-23 This collection of essays drawn from the latest generation of Whitehead scholars explores how in the deconstruction of certain concepts an unceasing invitation of possibility and change is released both in relation to ongoing philosophical conversations and as applied to lived experience The essays make a significant intervention in the field of Whiteheadian scholarship by creating new intersections and paths that extend Whitehead's thought in novel and often unexpected directions The philosophy of Alfred North Whitehead proposes a radical reconceptualization of experience one in which we and all other things are composed of mutually implicated series of events in an infinite universe of interaction generating and regenerating

experience Far from indicating a new superlative of holistic integrity Whitehead prefers the always incomplete movement of all realities which is the source of vitality for every new generation This volume applies Whitehead s philosophy to superlatives those valued concepts that limit and define our categories amid the flux of experience The first half of this book probes the superlatives that have historically defined philosophical method in the West These essays trace the adventures of concepts like substance novelty system and truth Ossified oppositions that define these superlatives are fractured indicating new directions for growth The essays in the second half of the book reflect on the influx fragility and impossibility of superlatives like care tragedy love and loss in human experience generating new matters of philosophical discourse Superlatives abound But Whitehead cautions us to attend to their multiplicity The mutual immanence of events constantly generates new constellations of importance and so superlatives because they are contingent upon unstable modes of togetherness cannot be taken for granted Any of these concepts may have a particular significance today but as events coalesce into new constellations those ideals will continue to take on new meaning
