Civilizing The Machine:

Civilizing the Machine John F. Kasson, 1999-05-17 A major theme in American history has been the desire to achieve a genuinely republican way of life that values liberty order and virtue This work shows us how new technologies affected this drive for a republican civilization a question as vital now as ever **Civilizing the Machine** John F. Kasson, 1972

Trading Environments Gordon M. Winder, Andreas Dix, 2015-12-07 This volume examines dynamic interactions between the calculative and speculative practices of commerce and the fruitfulness variability materiality liveliness and risks of nature It does so in diverse environments caught up in new trading relationships forged on and through frontiers for agriculture forestry mining and fishing Historical resource frontiers are understood in terms of commercial knowledge systems organized as projects to transform landscapes and environments The book asks how were environments traded and with what environmental and landscape consequences How have environments been engineered standardized and transformed within past trading systems What have been the successes and failures of economic knowledge in dealing with resource production in complex environments It considers cases from northern Europe North and South America Central Africa and New Zealand in the period between 1750 and 1990 and the contributors reflect on the effects of transnational commodity chains competing economic knowledge systems environmental ignorance and learning and resource exploitation In each case they identify tensions blind spots and environmental learning that plagued commercial projects on frontiers

Manufacturing Obedience Bruce William Littmann, 2004 **Surviving Forced Disappearance in Argentina and Uruguay** G. Gatti, 2014-08-13 Based on extensive fieldwork that began in Argentina this book asks how detained and disappeared persons inhabit the categories that international law has constructed to mark judge understand and repair the horror **Objects of Survivance** Lindsay M. Montgomery, Chip Colwell, 2019-11-21 Between 1893 and 1903 Jesse H Bratley worked in Indian schools across five reservations in the American West As a teacher Bratley was charged with forcibly assimilating Native Americans through education Although tasked with eradicating their culture Bratley became entranced by it collecting artifacts and taking glass plate photographs to document the Native America he encountered Today the Denver Museum of Nature Science s Jesse H Bratley Collection consists of nearly 500 photographs and 1 000 pottery and basketry pieces beadwork weapons toys musical instruments and other objects traced to the S Klallam Lakota Sioux Cheyenne Arapaho Havasupai Hopi and Seminole peoples This visual and material archive serves as a lens through which to view a key moment in US history when Native Americans were sequestered onto reservation lands forced into unfamiliar labor economies and attacked for their religious practices Education the government hoped would be the final tool to permanently transform Indigenous bodies through moral instruction in Western dress foodways and living habits Yet Lindsay Montgomery and Chip Colwell posit that Bratley s collection constitutes objects of survivance things and images that testify not to destruction and loss but to resistance and survival Interwoven with documents and interviews **Objects of Survivance**

illuminates how the US government sought to control Native Americans and how Indigenous peoples endured in the face of such oppression Rejecting the narrative that such objects preserve dying Native cultures Objects of Survivance reframes the Bratley Collection showing how tribal members have reconnected to these items embracing them as part of their past and reclaiming them as part of their contemporary identities This unique visual and material record of the early American Indian school experience and story of tribal perseverance will be of value to anyone interested in US history Native American studies and social justice Co published with the Denver Museum of Nature Science **Manifest Destinations** Jason Philip Gruen,2004 Waging Sovereignty Colleen O'Neill,2026-01-22 Wage work was supposed to kill the Indian and save the man or so thought Richard Pratt and other late nineteenth century policymakers Nevertheless even as American Indians entered the workforce they remained connected to their lands and cultures In this powerful history of resilience and transformation Colleen O Neill uncovers the creative strategies Native workers employed to subvert assimilation and fight for justice in the workplace their collective strength expanding the very meaning of sovereignty Drawing on federal archives Native memoirs oral histories and field research O Neill traces a sweeping story that stretches from the era of boarding schools to the contemporary world of high stakes gaming For more than a century federal policymakers tried to reshape Native lives through labor In some cases children were sent to pick crops and scrub settlers homes In others families were relocated to distant cities for permanent year round jobs that were designed to replace traditional seasonal labor and lifestyle patterns But Native workers persevered They rebuilt their communities fought to reclaim control of the reservation workplace and developed distinctive institutions to defend their cultural political and economic sovereignty As Waging Sovereignty illuminates wage work was a focal point of assimilationist efforts and in turn labor became a key factor in Native workers anti colonial struggle Mexico in Verse Stephen Neufeld,Michael Matthews,2015-03-26 The history of Mexico is spoken in the voice of ordinary people In rhymed verse and mariachi song in letters of romance and whispered words in the cantina the heart and soul of a nation is revealed in all its intimacy and authenticity Mexico in Verse edited by Stephen Neufeld and Michael Matthews examines Mexican history through its poetry and music the spoken and the written word Focusing on modern Mexico from 1840 to the 1980s this volume examines the cultural venues in which people articulated their understanding of the social political and economic change they witnessed taking place during times of tremendous upheaval such as the Mexican American War the Porfiriato and the Mexican Revolution The words of diverse peoples people of the street of the field of the cantinas reveal the development of the modern nation Neufeld and Matthews have chosen sources so far unexplored by Mexicanist scholars in order to investigate the ways that individuals interpreted whether resisting or reinforcing official narratives about formative historical moments The contributors offer new research that reveals how different social groups interpreted and understood the Mexican experience The collected essays cover a wide range of topics military life railroad accidents religious upheaval children s literature alcohol consumption and the 1985 earthquake Each
