

CONSTRUCTIVE CRITICISM

Constructive criticism refers to providing feedback to a person or group that is delivered in a positive tone with the intent of helping others improve.

DEFINITION

Constructive criticism is honest, genuine, well-meaning feedback that provides a critique of the strengths and weaknesses of something or someone

The criticism should be specific and offers clear and achievable suggestions on how to improve.

EXAMPLE

The 3x3 method involves recommending highlighting 3 strengths and then 3 ways that each of those strengths could have worked better.

By also highlighting strengths, it ensures the person feels supported and not unfairly attacked. The suggestions for improvement mean the criticism can be used for self-growth.
