The Foundations of British Government

THIRD EDITION

Rodney Brazier

Constitutional Practice

Christian G. Meyer

Constitutional Practice:

Constitutional Practice Rodney Brazier, 1999 This book is intended for students of constitutional law and British politics and government lawyers politicians and government officials

The Practice of American Constitutional Law Jefferson Powell, 2022-05-19 A comprehensive ideologically neutral description of the practice of constructing and evaluating constitutional law arguments

Constitutions and Political Theory Jan-Erik Lane, 1996 Jan Erik Lane begins by examining the origins and history of constitutionalism the doctrine that the state must be regulated by means of a set of institutions that guarantee citizen rights and procedural accountability He then examines the structure of the state in order to identify the essential elements that constitutional institutions regulate Lane asks why constitutions exist and how they matter for society Finally he seeks out the requirements for a fair and democratic constitution by referring to three key concepts in political theory justice equality and the rule of law The book also offers a comparative survey of formal constitutional arrangements in different countries and an analysis of how constitutions develop in practice through the implementation of constitutional and administrative law in a country's courts

Fidelity to Our Imperfect Constitution James E. Fleming, 2015 James E Fleming argues that fidelity in interpreting the US Constitution as written requires a moral reading or philosophic approach and that fidelity commits to honouring aspirational principles not following the relatively specific original meanings or original expected applications of the founders

Originalism's Promise Lee J. Strang, 2019-08-08 Provides the first natural law justification for an originalist interpretation of the American Constitution

The Constitutional Review, 1922 Includes section Book reviews

Lectures Introductory to the Study of the Law of the Constitution Albert Venn Dicey, 1885

Introduction to the Study of the Law of the Constitution Albert Venn Dicey, 1889

The Practice of American Constitutional Law H. Jefferson Powell, 2022-05-05 Americans often think about constitutional law in terms of high profile decisions by the Supreme Court decisions that divide the justices by ideology not law This focus often leads to the erroneous conclusion that constitutional law arguments are and can only be political in substance In *The Practice of American Constitutional Law* H Jefferson Powell demonstrates that there is a longstanding shared practice of constructing and evaluating constitutional law claims that transcends current political disagreements Powell describes how lawyers and judges identify constitutional problems by using a specifiable method of inquiry that enables them to agree on what the questions are and thus what any plausible answer must address even when disagreement over the most persuasive answers remains Rather than being simply politics by other means constitutional law is the successful practice of giving substance to the Constitution as supreme law

New Outlook, 1907

The Constitutional History of England in Its Origin and Development William Stubbs, 1890

The Dynamic Constitution Richard H. Fallon, 2013-04-22 In this revised and updated second edition of *The Dynamic Constitution* Richard H Fallon Jr provides an engaging sophisticated introduction to American constitutional law Suitable for lawyers and non lawyers alike this book discusses contemporary constitutional doctrine

involving such issues as freedom of speech freedom of religion rights to privacy and sexual autonomy the death penalty and the powers of Congress Through examples of Supreme Court cases and portraits of past and present Justices this book dramatizes the historical and cultural factors that have shaped constitutional law The Dynamic Constitution 2nd edition combines detailed explication of current doctrine with insightful analysis of the political culture and theoretical debates in which constitutional practice is situated Professor Fallon uses insights from political science to explain some aspects of constitutional evolution and emphasizes features of the judicial process that distinguish constitutional law from ordinary politics
