Constructive Trusts:

Equity and Trusts Alastair Hudson, 2005 *Equity and Trusts* has quickly established itself as a market leader due to its clarity, insight and accessibility in what is perhaps the most complex of legal areas. Hudson's scholarly account of the subject makes this text sufficiently authoritative for trust practitioners but also provides a comprehensible introduction for a student audience. As in previous editions, the traditional doctrines are analysed in the context of current issues and the book's progressive approach intersperses discussion of the core ideas with clear examples. This fourth edition has been extensively rewritten and includes new chapters on understanding the trust, certainty in the creation of express trusts, the rights of beneficiaries and the beneficiary principle, formalities in the creation of express trusts, constructive trusts, breach of trust, miscellaneous equitable remedies, individual essays on the nature of express trusts, the law on fiduciaries, family law, human rights law and equity draw together the main principles while examining related questions of restitution and social justice. This book is essential reading for all those seeking a modern approach to this crucial area of law. *Understanding Equity & Trusts* Alastair Hudson, 2008 *Understanding Equity Trusts* provides an accessible, readable and comprehensive overview of the main themes in this dynamic area of the law. It will be of interest to students struggling to cope with the increasingly complex field of trusts law and to those revising for exams.

Cases & Materials on Trusts Mohamed Ramjohn, 2004 This new edition has been considerably revised to take account of recent major statutory and case law developments. The Contracts (Rights of Third Parties) Act 1999 introduced a significant improvement in the rights of third parties to enforce contracts. The Trustee Delegation Act 1999 and the Trustee Act 2000 have had a profound effect in updating the law concerning trustees' duties and powers. Important new cases covered include *Foskett v McKeown* (tracing), *Pragon Finance Ltd v Thakerar* (constructive trusts), *Air Jamaica v Charlton* (resulting trusts), *Choithram International v Pagarani* (constitution of trusts), *Twinsectra Ltd v Yardley* (accessory liability), *Wight v Olswang* (exclusion clauses), *Southwood v AG* (charities), *Schmidt v Rosewood Trust* (disclosure of trust documents), *Pennington v Waine* (gifts of shares), *Le Foe v Le Foe* (indirect contributions to family assets), *Gwembe Valley Development Co Ltd v Koshy* (limitation periods), *Duggan v Governor of Full Sutton Prison* (intention to create a trust), *OT Computers Ltd v First National Tricity Finance Ltd* (certainty of objects) and many more. Each chapter includes an exposition of the fundamental principles of trusts law in a readable and intelligible form, supplemented by extracts from judgments of leading cases. References to other relevant cases, statutes, articles and official reports are also incorporated where appropriate.

Trusts Law Graham Moffat, 2005-09-29 With its unique contextual emphasis and authoritative commentary, *Trusts Law: Text and Materials* is a book that no serious undergraduate on trust law courses can afford to be without. The book is divided into four main parts: trusts and the preservation of family wealth; trusts and family breakdown; trusts and commerce; and trusts and non-profit activity. Within each of these parts, leading cases, statutes and historical and research materials are placed alongside the narrative of the author's text to give emphasis both to general

theories of trust concepts and to the practical operation of trusts Attention is also given to important themes such as the developing relationship between trusts law and other areas of private law such as the Law of Restitution This new edition takes account of all relevant judicial and legislative developments since the third edition and expands discussion of key themes in current developments of the law
