Conquest Colonisation:

Migrants in Medieval England, c. 500-c. 1500 W. Mark Ormrod, Joanna Story, Elizabeth M. Tyler, 2020-08-20 This is a ground breaking volume into the phenomenon of migration in and to England over the medieval millennium A series of subject specialists synthesise and extend recent research in a wide range of disciplines and marks an important contribution to medieval studies and to modern debates on migration and the free movement of people

Indigenous Peoples' Land Rights under International Law Jérémie Gilbert, 2016-06-21 This book addresses the right of indigenous peoples to live own and use their traditional territories and analyses how international law addresses this Through its meticulous examination of the interaction between international law and indigenous peoples land rights the work explores several burning issues such as collective rights self determination property rights cultural rights and restitution of land It delves into the notion of past violations and the role of international law in providing for remedies reparation and restitution It also argues that there is a new phase in the relationship between States indigenous peoples and private actors such as corporations in the making of territorial agreements The first edition of this ground breaking book was published in 2006 at the time the negotiations for the adoption of the United Nations Declaration on the Rights of Indigenous Peoples UNDRIP were still underway The adoption of the Declaration in 2007 marks an important moment not only in terms of law making but also represents the achievement of long decades of lobbying and advocacy from indigenous peoples representatives This fully revised new edition reflects on the 10 years which have followed the adoption of the UNDRIP and examines its impact regarding indigenous peoples land rights Its aim is not only to assess the importance of the UNDRIP in terms of international standards but also to reflect on the maturing of international law in relation to indigenous peoples land rights Over the last 10 years these have reached a new level of visibility and a voluminous new jurisprudence and doctrine have been developed Praise for the first edition Gilbert s passion for his subject is palpable and illuminates every page as do his zeal to expose international law s complicity in indigenous peoples loss of their territories and tentative hope that international law might now provide some protection of indigenous peoples lands The choice of topic is also to be applauded There are few texts that examine indigenous peoples land rights in such depth Claire Charters Associate Professor University of Auckland New Zealand in *International and Comparative Law Quarterly* ICLQ Gilbert s gaze is firmly fixed on the future and the question how international law will reflect *lex ferenda* on indigenous land rights His interpretation of international law must be seen in this light He is looking beyond the current controversies in the rights discourse towards a more conciliatory phase in state indigenous relations International law undoubtedly has an important role to play in his vision but its primary function is to facilitate dialogue rather than as a combative and adversarial mechanism Gilbert s book is a tour de force on indigenous territoriality Stephen Allen Senior Lecturer in Law Queen Mary University London United Kingdom in *International Journal on Minority and Group Rights*

The Archaeology of the 11th Century Dawn M Hadley, Christopher Dyer, 2017-02-10 The

Archaeology of the 11th Century explores this formative period of English history and in particular the impact of the Conquest of England by the Normans. The volume examines how the Normans contributed to local culture, religion, and society through a range of topics including food culture, funerary practices, the development of castles, and their impact, and how both urban and rural life evolved during the eleventh century. Through its nuanced approach to the complex relationships and regional identities which characterized the period, this collection stimulates renewed debate and challenges some of the long-standing myths surrounding the Conquest.

Contact, Conquest and Colonization Eleonora Rohland, Angelika Epple, Antje Flüchter, Kirsten Kramer, 2021-06-03. Contact, Conquest and Colonization brings together international historians and literary studies scholars in order to explore the force of practices of comparing in shaping empires and colonial relations at different points in time and around the globe. Whenever there was cultural contact in the context of European colonization and empire building, historical records teem with comparisons among those cultures. This edited volume focuses on what historical agents actually do when they compare rather than on comparison as an analytic method. Its contributors are thus interested in the doing of comparison and explore the force of these practices of comparing in shaping empires and post-colonial relations between the sixteenth and twentieth centuries. This book will appeal to students and scholars of global history as well as those interested in cultural history and the history of colonialism.

The Lordship of Galloway Richard D. Oram, 2001-02-19. In viewing Galloway from the wider context of the northern British mainland, Irish Sea, and wider Hebridean zone, it has been possible to explore the dynamics of state building, dynastic interactions, and the close inter-relationships of the territories connected by the western seaways, which most traditional national histories obscure. From this wider perspective, the development of the lordship of Galloway can be considered in the context of the spreading power and regional rivalries of English, Irish, and Scottish kings, and a reassessment of the emergence of the unitary lordship controlled by Fergus of Galloway and his family. Traditional interpretations of the relationship of Fergus and his successors with the kings of England and Scotland are challenged, and new light is thrown on the beginnings of the processes of progressive domination of Galloway by and integration into the kingdom of the Scots. The end of the autonomous lordship in the 1230s is projected against the backdrop of the aggressive state building activities of King Alexander II and the transformation of its rulers from independently minded princes and warlords into Anglo-Scottish barons.

The Making of Europe Robert Bartlett, 1993. This provocative book shows that Europe in the Middle Ages was as much a product of a process of conquest and colonization as it was later a colonizer. Will be of great interest to those interested in cultural transformation, colonialism, racism, the Crusades, or holy wars in general.

Shifting Forms of Continental Colonialism Dittmar Schorkowitz, John R. Chávez, Ingo W. Schröder, 2019-09-28. This book explores shifting forms of continental colonialism in Asia, Africa, Europe, and the Americas from the early modern period to the present. It offers an interdisciplinary approach, bringing together historians

anthropologists and sociologists to contribute to a critical historical anthropology of colonialism Though focused on the modern era the volume illustrates that the colonial paradigm is a framework of theories and concepts that can be applied globally and deeply into the past The chapters engage with a wide range of topics and disciplinary approaches from the theoretical to the empirical deepening our understanding of under researched areas of colonial studies and providing a cutting edge contribution to the study of continental and internal colonialism for all those interested in the global impact of colonialism on continents
