Hold fast the form of sound words...the things that thou hast heard of me among many witnesses, the same commit thou to faithful men, who shall be able to teach others also... Thou hast fully known my doctrine, manner of life, purpose... Through faith we understand...

—**APOSTLE PAUL**

But grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ. To him be glory both now and for ever. Amen.

—**APOSTLE PETER**

My heart, I give you, O Lord, promptly and sincerely.

—**JOHN CALVIN**

A man's religion is never better than his theology. Therefore, seeing that theology is vital, determining, and regulative, it must be sought with utmost care and received by earnest prayer.

—**PETER CONNOLLY**

To be either true or useful, theology must be a passion.

—**A. H. STRONG**

Theology determines morality. One must be a theologian to worship scripturally, pray aright and serve consistently.

—**W. R. DOWNING**

Ultimately, everything is disciplined by Theology.

—**PASTOR TOM LYON**

This 5th edition has been completely revised and now features new and extended material, numerous additional illustrations, and companion resources ensuring it retains its reputation as the ideal introduction to Christian theology. Fully updated 5th edition of the bestselling textbook incorporating expanded material, numerous student features, and new illustrations. Features new sections on Copernicanism and Darwinism. Includes extended discussions of Augustine's doctrine of creation, Trinitarian theologies of religion, and the relation of Christianity to other faiths. May be used as a stand-alone volume or alongside the *Christian Theology Reader* 4th edition for a complete overview of the subject. Retains the chapter structure of the 4th edition, ensuring comparability with earlier editions and courses based on these. Accompanied by a revised instructor's website featuring expanded resources including study questions and answers. Visit www.wiley.com/go/mcgrath for more details and to register for access. **An Introduction to Theology in Global Perspective** Stephen B. Bevans, 2009 [An Introduction to Christian Theology](#) Richard J. Plantinga, Thomas R. Thompson, Matthew D. Lundberg, 2022-11-03 A journey in Christian theology through biblical, historical, and thematic perspectives with special attention to the context of today's world. *Thinking about God* Dorothee Soelle, 2016-08-05 Developing out of a series of public lectures given to a large audience of non-theologians, this is one of the most attractive introductions to theology which has appeared so far. Perhaps as Dorothee Soelle points out, in fact, 'introduction' is not the right word for this; it is above all an invitation to share her enthusiasm for theology, her delight in the beauty and the power of religious and theological language, and the themes it expresses. The book covers all the major areas of modern theology: After discussing the nature of systematic theology and comparing orthodox, liberal, and radical approaches, it looks at the use of the Bible in theology. Then follow chapters on creation, sin, feminist liberation theology, the understanding of grace, Black theology, Jesus, the cross, and resurrection, the kingdom of God, and the church, the theology of peace, the end of theism, and the question of God. Each chapter is followed by a bibliography, and Dorothee Soelle, who is familiar with theology on both sides of the Atlantic, has herself revised these for the English language edition. *Catholic Theology* Frederick C. Bauerschmidt, James J. Buckley, 2016-03-28 *Introduction to Catholic Theology* is an accessible but in-depth examination of the ways in which Catholic theology is rooted in and informs Catholic practice. Weaves together discussion of the Bible, historical texts, reflections by important theologians, and contemporary debates for a nuanced look at belief and practice within the Catholic faith. Provides an overview of all major theological areas, including scriptural, historical, philosophical, systematic, liturgical, and moral theology. Appropriate for students at all levels, assuming no prior knowledge, yet providing enough insight and substance to interest those more familiar with the topic. Written in a dynamic, engaging style by two professors with more than 50 years of classroom experience between them. **An Introduction to Theology** Hermon

F. Bell, 1924 *Historical Theology* Alister E. McGrath, 2022-11-10 The newly updated and expanded edition of the bestselling introduction to Historical Theology *Historical Theology: An Introduction to the History of Christian Thought* traces the development of Christian theology from its earliest days to the present. Assuming no prior knowledge of the subject, this authoritative yet accessible textbook introduces the major theological movements, key ideas, and individual theologians of the Patristic Period, the Middle Ages, and Renaissance, the Reformation and Post-Reformation, and the Modern Era up to the present day. Throughout the book, students explore central themes through numerous case studies, primary readings, and study questions at the end of each section. Now in its third edition, *Historical Theology* includes substantial new sections on theodicy, modern African Christologies, and postcolonial theology. The book retains the structure of the previous editions, covering the key development and people within all the main historical periods while introducing readers to the core themes of historical theology across the centuries. This fully updated new edition provides a general overview of each period covered, including historical background and main theological developments. Features individual case studies and excerpts from primary texts to allow readers to examine specific themes in greater detail. Defines the fundamental theological vocabulary necessary for engaging with other works. Highlights the importance of the discipline of historical theology and its place in wider Christian theology. Contains references to further readings in each chapter and full glossaries of important words, names, phrases, and theological developments. Includes web material developed by the author to help users get the most out of using this textbook, along with sample lectures on some of its themes. Written by one of the most renowned theologians in the field, *Historical Theology: An Introduction to the History of Christian Thought*, Third Edition, remains the perfect textbook for advanced undergraduate and graduate courses in Christian History, Christian Theology, and the Reformation. **An Introduction to Christian Theology** Anthony Towey, 2018-02-22 There has long been a need for a comprehensive but truly introductory, single-authored textbook in theology. By introducing the reader to the biblical, doctrinal, and contemporary dimensions of Christianity with the help of illustrated examples from selected primary texts, the book provides an excellent grounding in theology for both students of the discipline and the general reader. The work explores key tools for the scientific study of theology, endeavoring both to affirm the rationale behind Christian thinking and also to familiarize the reader with significant contrary positions. The solid foundations in biblical theology and hermeneutics given in the book will enable students to read Judeo-Christian scripture intelligently. Key testimonies regarding Jesus Christ are scrutinized, and the nature of the New Testament discussed. As well as the emergence of doctrinal orthodoxy and the later disagreements which have shaped contemporary Christianity, the reader will become familiar with the dimensions of current Christian thinking in its dialogue with post-modernity. This new edition includes an additional chapter examining spirituality and a series of companion videos for each chapter. *The Faith of the Christian Church* Tyron Inbody, 2005-04-14 Tyron Inbody has taught the basics of Christian theology for more than twenty-five years. Having seen over the years what issues and questions his

students bring to class he now offers this engaging accessible introduction to all the major beliefs of the Christian faith Meant especially but not exclusively for readers new to theology Inbody s Faith of the Christian Church covers twelve traditional areas of Christian teaching theology revelation faith God creation suffering and evil humankind Jesus Christ salvation church sacraments and the end times Inbody also dives into provocative topics not usually treated in introductory texts creationism the devil miracles the virgin birth and more The book s broad ranging perspective which intentionally defies labels commends it to individuals and small groups from many church traditions Quote boxes and illustrations drawn from popular culture make the text visually interesting and enjoyable to read Inbody does not hide his own stance on issues but presents a full range of interpretations and openly points readers to other possibilities they can pursue The Faith of the Christian Church offers just enough questions to provoke reflection and just enough answers to encourage readers to form their own grasp on the Christian faith

Awake to the Moment Laurel C. Schneider, Stephen G. Jr. Ray, 2004-12-01 Most introductory textbooks in theology see their primary task as explaining Christian doctrines that no one quite understands anymore While this is one of theology s jobs it is by no means the only nor even the most important one Theology has also been called to change the world to help people connect deeply rooted beliefs about the world s source and goal to questions of personal meaning and communal thriving Theology is here to help us make sense of the complex flawed world into which we ve been thrust and to assist us in our attempt to love our neighbors and live toward the common good For more than forty years the Workgroup on Constructive Theology has brought the liberal and liberationist theological traditions into creative encounter with lived human experience In this introduction to the methods and tasks of theology they invite a new generation of readers many who will have little or no exposure to Christian doctrine to see theology as a partner in the struggle for a better world They demonstrate how theological ideas have legs playing themselves out not only in religious communities but in the public square as well Theology the authors tell us is constructive when it joins in God s work of building human lives and human societies Readers will learn to think about all of life in light of their religious commitments and to see theology as an essential tool for a life well lived
