THOUGH I am a Stranger to your Person yet I am not Sir a Stranger to the Reputation you have acquired in that branch of Learning which hath been your peculiar Study nor to the Authority that you therefore assume in things foreign to your Profession nor to the Abuse that you and too many more of the like Charader are known to make of such undue Authority to the misleading of unwary Persons in matters of the highest Concernment and whereof your mathematical Knowledge can by no means qualify you to be a competent Judge Equity indeed and good Sense would incline one to disregard the Judgment of Men in Points which they have not considered or examined But several who make the loudest Claim to those Qualities do nevertheless the very thing they would seem to despise clothing themselves in the Livery of other Mens opinions and putting on a general deference for the Judgment of you Gentlement who are presumed to be of all Men the greatest Masters of Reson to be most conversant about distinct Ideas and never to take things upon trust but always clearly to see your way as Men whose constant Employment is the deducing Truth by the justest inference from the most evident Principles With this bias on their Minds they submit to your Decisions where you have no right to decide And that this is one short way of making Infidels I am credibly informed
