Projects in Visual Basic. Net William Vasquez,2014-12-10 A programmer can create an application using the components
provided by the Visual Basic program itself Over time the community of programmers have developed new third party
components keeping this programming language to modern standards Programs written in Visual Basic can also use the
Windows API which requires external function declarations Furthermore new third party functions which are open source
using part VB6 source code and part embedded machine code make the Visual Basic 6 0 applications faster than those
designed in C Visual Basic .NET at Work Tony Martin,Dominic Selly,2002-09-18 Gain the tools to create 10 reusable
enterprise projects utilizing the new features of VB NET Going beyond the standard reference books Tony Martin takes
readers step by step through the process of creating ten reusable enterprise applications with the next version of Microsoft s
leading programming language Visual Basic NET Readers will start by building a standard application template which will
form the basis of all the projects Martin explains how to combine VB NET with other key technologies such as Web Services
ASP NET XML WebForms and the Microsoft Mobile Framework to solve the important issues corporate Visual Basic
programmers face today Microsoft Technologies CD ROM includes complete source code for the projects in the book and the
third party tools required to build the projects NET Platform The next big overhaul to Microsoft s technologies that will bring
