Global Competition Law and Economics Einer Elhauge, Damien Geradin, 2011-08-03 This innovative work is the only truly comparative and economically sophisticated casebook on global antitrust law

Reconciling Efficiency and

Equity Damien Gerard, Ioannis Lianos, 2019-05-09 Provides a new conceptualization of competition law as economic inequality and its interaction with efficiency become of central concern to policy and decision makers The Private Enforcement of Competition Law in Ireland David McFadden, 2014-07-18 Competition is recognised as a key driver of growth and innovation Competition ensures that businesses continually improve their goods and services whilst striving to reduce their costs Anti competitive conduct by businesses such as price fixing causes harm to the economy to other businesses and to consumers It is small businesses and the consumer who ultimately pay the price for anti competitive conduct A coherent competition policy that is both effectively implemented and effectively enforced is essential in driving growth and innovation in a market economy The importance of competition was recently emphasised when the EU ECB IMF Troika included a number of competition specific conditions to the terms of Ireland's bailout Both Irish and Community law recognise the right for parties injured by anti competitive conduct to sue for damages This right to damages in theory allows those that have suffered loss to recover that loss whilst helping to deter others from taking the illegal route to commercial success However private actions for damages in Ireland are rare This book asks what the purpose of private competition litigation is and questions why there has been a dearth of this litigation in Ireland The author makes a number of suggestions for reform of the law to enable and encourage private competition litigation The author takes as his starting point the European Commission's initiative on damages actions for breach of the EC antitrust rules and compares the position in Ireland to that currently found in the UK and US The Antitrust Religion Edwin S. Rockefeller, 2007-10-25 Many successful American businesses have been accused of anti competitive practices Drawing on 50 years of experience with U S antitrust laws attorney and author Edwin S Rockefeller sheds light on why lawmakers bureaucrats academics and journalists use arbitrary and irrational laws and enforcement mechanisms to punish capitalists rather than promote competition The Antitrust Religion argues that everything most people know about antitrust is wrong Rockefeller vividly shows how antitrust has been transformed into a quasi religious faith He explains that this antitrust religion relies on economic theories that bestow a veneer of objectivity and credibility on law enforcement practices that actually rely on hunch and whim This book will greatly assist business professionals journalists policymakers professors judges and all others interested in government regulation of business in understanding how our antitrust laws actually work **Cases and Materials on U.S. Antitrust in Global Context** Eleanor M. Fox, 2012 This up to the minute antitrust casebook with 2019 Update is rich with political economy economics global perspective and in general the analytics of solving contemporary antitrust problems in the United States and the world Useful in a 3 or 4 credit course and as a desk book the volume features all of the landmark U S antitrust cases the evolving new economy and big data information technology developments and references to contrasting and converging European South African and other jurisprudence It offers a clear presentation of the tools for analysis examining assumptions that may influence outcomes The work is unique in its probing questions that explore the line between hard competition and

abuse of power and its problem sets for analysis and debate *Cases and Materials on Trade Regulation* Milton Handler,1990 *Economics and Federal Antitrust Law* Herbert Hovenkamp,1985 *Richard Posner* William Domnarski,2016 The first biography of Judge Richard Posner arguably the most prolific jurist and brilliant legal intellectual of our time *The AALS Directory of Law Teachers* ,2004 *Law Quadrangle Notes* ,1957 **Bowker's Law Books and Serials in Print** ,1995 **Recording for the Blind & Dyslexic, ... Catalog of Books** ,1996 **World Competition** ,2004 *The Health Care Revolution* Carl F. Ameringer,2008-04-09 America s market based health care system unique among the nations of the world is in large part the product of an obscure yet profound revolution that overthrew the medical monopoly in the late 1970s In this lucid balanced account Carl F Ameringer tells how this revolution came into being when the U S Supreme Court and Congress prompted the antitrust agencies of the federal government the Federal Trade Commission and the Justice Department to change the rules of the health care system Ameringer lays out the key events that led up to this regime change explores its broader social political and economic contexts examines the views of both its proponents and opponents and considers its current trajectory *Antitrust* ,1989 **Law Books in Print: Subject list J.** Myron Jacobstein,Meira G. Pimsleur,1976 *Licensing Technology* Noel Byrne,Amanda McBratney,2005 This practical work provides step by step guidance for negotiating drawing up and implementing a technology licence agreement with UK and overseas licensees Reviews of important cases from around the world are included **Paperbound Books in Print** ,1992
