A Note In Music:

The Twelve-Note Music of Anton Webern Kathryn Bailey, 1991 This important new study reassesses the position of Anton Webern in twentieth century music The twelve note method of composition adopted by Anton Webern had profound consequences for composers of the next generation such as Stockhausen and Boulez who saw Webern's music as revolutionary In her detailed analyses however Professor Bailey demonstrates a fundamentally traditional aspect to Webern's creativity when describing his own music Professor Bailey analyses all Webern's twelve note works from Op 17 to Op 31 i e the instrumental and vocal music written between 1924 and 1943 These analyses draw on sketch material recently made available at the Paul Sacher Foundation in Basel and include transcriptions of little known drafts and sketches A most valuable aspect of the book is the inclusion in appendices of such materials as a complete explanation of the row content of each work the correct prime form of each of the rows from Op 20 onwards with a matrix constructed for each and exhaustive row analyses
