The Greatest Beach Ethan Carr, 2019-06-01 In the mid nineteenth century Thoreau recognized the importance of preserving the complex and fragile landscape of Cape Cod with its weathered windmills expansive beaches dunes wetlands harbors and the lives that flourished here supported by the maritime industries and saltworks One hundred years later the National Park Service working with a group of concerned locals then senator John F Kennedy and other supporters took on the challenge of meeting the needs of a burgeoning public in this region of unique natural beauty and cultural heritage To those who were settled in the remote wilds of the Cape the impending development was threatening and as the award winning historian Ethan Carr explains the visionary plan to create a national seashore came very close to failure Success was achieved through unprecedented public outreach as the National Park Service and like minded Cape Codders worked to convince entire communities of the long term value of a park that could accommodate millions of tourists Years of contentious negotiations resulted in the innovative compromise between private and public interests now known as the Cape Cod model The Greatest Beach is essential reading for all who are concerned with protecting the nation's gradually diminishing cultural landscapes In his final analysis of Cape Cod National Seashore Carr poses provocative questions about how to balance the conservation of natural and cultural resources in regions threatened by increasing visitation and development
