## **Carolina Compromise:**

*Majority Rule Versus Consensus* James H. Read, 2009 This text sheds light on the promise and limitations of democracy showing that despite the failure of Calhoun's remedy his diagnosis of the potential injustice of majority rule must be taken seriously

**Federalism, Secession, and the American State** Lawrence M. Anderson, 2013-05-20 One important tradition in political science conceives of the Civil War in the United States serving as the functional equivalent of the English and French Revolutions bringing with it the victory of liberal democratic industrialism over aristocratic agriculturalism From this perspective the Civil War is notable for its impact on the American state Surprisingly however little attention has been paid to the distinguishing features of this historic rupture in American politics Through primary source research and the reanalysis of the rich historical literature about the antebellum era and the causes of the Civil War Lawrence A Anderson explores the relationship between federalism and the movement for secession in the United States during the pre civil war era Focusing primarily on South Carolina Anderson carefully revisits theory on institutional analysis of political development to expose what caused secession in the United States

**Speech of Mr. Butler, of South Carolina, on the Compromise Bill** Andrew Pickens Butler, 2018-10-12 Excerpt from Speech of Mr Butler of South Carolina on the Compromise Bill Delivered in the Senate on Tuesday July 9 1850 The birth of an individual is an event of interest and concern to society but the existence of a political community like a State is a matter of grave concern to other communities and one of historical magnitude As it affects the property and security of other States they cannot be indifferent to the consequences of such a measure New Mexico in her claim to become a State without leave or license is following in the wake of a more imposing predecessor and may well claim to take refuge in her precedent All that they have to do is to propagate the same feelings and interests which encouraged and sustained California and they are about to do this not only in the defiance of Congress but in violation of the rights of another State New Mexico can then come with a perfect claim and will come with a perfect claim if the other precedent is acted upon And what are we required to do We are required to permit these two States to come in with just institutions as they may form and with such boundaries as they may assume and there can be very little doubt of what character they will be in one respect What then do we get by this compromise California is to be extended from Oregon to Mexico and these limits are to be preserved because slavery has been excluded from them by the constitution tendered to Congress Gentlemen say we will not yield an inch of this for Southern settlement It has already been appropriated under Northern institutions On the contrary they are willing to take from Texas as much slave territory as they can get with a view of converting it into non slave holding territory and with a view of keeping her slave holding neighbors in good order They say California can do without a guardian but that New Mexico must have a helping hand Texas is thus required to curtail her limits while it is held as the duty of congress to maintain inviolate the present proposed limits of California Now that was not the opinion of some gentlemen whose notions were so peculiar when that subject was first agitated The progress of events

however has made wondrous changes in their minds I say therefore in limine thati cannot consent to this dangerous policy of allow ing others to make States extra constitutionally and against pre the securities which that instrument should afford to every part say one part more than another About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
