Cars In Color A Studio:

The Big Book of Car Culture Jim Hinckley, Jon G. Robinson, 2005 With the powerful rhythmic sounds of Aboriginal English and Kokatha language woven through the narrative Mazin Grace is the inspirational story of a feisty girl who refuses to be told who she is determined to uncover the truth for herself Growing up on the Mission isn't easy for clever Grace Oldman When her classmates tease her for not having a father she doesn't know what to say Pappa Neddy says her dad is the Lord God in Heaven but that doesn't help when the Mission kids call her a bastard As Grace slowly pieces together clues that might lead to answers she struggles to find a place in a community that rejects her for reasons she doesn't understand In this novel author Dylan Coleman fictionalizes her mother's childhood at the Koonibba Lutheran Mission in South Australia in the 1940s and 1950s

The Color Revolution Regina Lee Blaszczyk, 2012-08-31 A history of color and commerce from haute couture to automobile showrooms to interior design When the fashion industry declares that lime green is the new black or instructs us to think pink it is not the result of a backroom deal forged by a secretive cabal of fashion journalists designers manufacturers and the editor of Vogue It is the latest development of a color revolution that has been unfolding for more than a century In this book the award winning historian Regina Lee Blaszczyk traces the relationship of color and commerce from haute couture to automobile showrooms to interior design describing the often unrecognized role of the color profession in consumer culture Blaszczyk examines the evolution of the color profession from 1850 to 1970 telling the stories of innovators who managed the color cornucopia that modern artificial dyes and pigments made possible These color stylists color forecasters and color engineers helped corporations understand the art of illusion and the psychology of color Blaszczyk describes the strategic burst of color that took place in the 1920s when General Motors introduced a bright blue sedan to compete with Ford's all black Model T and when housewares became available in a range of brilliant hues She explains the process of color forecasting not a conspiracy to manipulate hapless consumers but a careful reading of cultural trends and consumer taste And she shows how color information flowed from the fashion houses of Paris to textile mills in New Jersey Today professional colorists are part of design management teams at such global corporations as Hilton Disney and Toyota The Color Revolution tells the history of how colorists help industry capture the hearts and dollars of consumers
