**Case, Scope, and Binding** M. Bittner, 2014-09-01 *Cases Argued and Decided in the Supreme Court of Mississippi* Mississippi. Supreme Court, 1929 *Pseudo-Noun Incorporation and Differential Object Marking* Imke Driemel, 2023-03-07 This book provides a detailed cross linguistic study of pseudo noun incorporation a phenomenon whereby an argument forms a closer than usual relation with the verb Imke Driemel draws on data from Tamil Mongolian Korean Turkish and German and applies diagnostic tests across eleven noun types in each of the languages under consideration What emerges is a coherent effect of pseudo incorporated arguments that maps loss of case marking to obligatory narrow scope lack of binding and control relations and a potentially restricted movement pattern The book provides a unifying theory that is able to capture all properties with a single assumption pseudo incorporation effects result from noun phrases that are made up of a nominal and a verbal category feature implemented in a derivational framework the nominal feature is active early in the derivation being responsible for c selection and nominal modification while the verbal feature is active late and crucially derives the effects we have come to recognize as pseudo noun incorporation One important empirical contribution of this study stems from the observation that pseudo incorporation does not have to be the only reason for optional case marking Tamil and Korean provide evidence that only a subset of optionally case marked noun types also show a correlation with scope binding control and movement constraints This insight enforces the conclusion that the same language can make use of both pseudo noun incorporation and differential object marking [Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management. Duffy, 2022-06-16 This two volume set LNCS 1319 and 13320 constitutes the thoroughly refereed proceedings of the 13th International Conference on Digital Human Modeling and Applications in Health Safety Ergonomics and Risk Management DHM 2022 which was held virtually as part of the 24rd HCI International Conference HCII 2022 in June July 2022 The total of 1271 papers and 275 poster papers included in the 39 HCII 2022 proceedings volumes was carefully reviewed and selected from 5487 submissions DHM 2022 includes a total of 56 papers The first volume focuses on topics related to ergonomic design anthropometry and human modeling as well as collaboration communication and human behavior The second volume focuses on topics related to task analysis quality and safety in healthcare as well as occupational health and operations management and Digital Human Modeling in interactive product and service design **Cases and Thematic Roles** Beatrice Primus, 2010-09-03 This book is concerned with the mapping of thematic roles such as agent and patient onto syntactic cases such as nominative or ergative or onto structural relations It shows that cases and structural relations code different aspects of thematic structure The thematic determination of the structural relation of an argument is confined to its position in the thematic structure of the predicate Case mapping is determined by the number of basic thematic concepts involved in this structure This fact and other facts presented in the book presuppose an approach to thematic roles that

decomposes them into more basic concepts involving volitionality causation activity sentience possession etc and motivate the hypothesis that syntactic cases cannot be derived from structural relations in universal grammar The phenomena pertaining to relational typology that classifies languages into ergative accusative and active languages are shown to be restricted to case mapping The specific thematic determination of case mapping and the hierarchical organization of case systems explain not only the existence of these types of mapping but also the fact that ergative and active phenomena are typically case based The book provides a global cross linguistic perspective but German data recurrently serve as an illustration of the main theoretical assumptions
