Castoriadis Reader:

The Castoriadis Reader David Curtis, 1997-07-07 Cornelius Castoriadis is presently Director of Studies at the Ecole des Hautes Etudes en Sciences Sociales in Paris He is a philosopher social critic professional economist practicing psychoanalyst and one of Europe's foremost thinkers The Castoriadis Reader provides for the first time an overview of the author's work and encompasses every aspect of his thought

From Agamben to Zizek Jon Simons, 2010-09-10 In these 15 taster essays you will discover the key concepts and critical approaches of the theorists who have had the most significant impact on the humanities since 1990

Workers of the World, Enjoy! Kenneth H. Tucker, 2012-06-15 The aesthetic politics of social movements turn public life into a public stage where mutual displays of performance often trump rational debate and urban streets become sites of festivals and carnival In his penetrating new book *Workers of the World Enjoy* Kenneth Tucker provides a new model for understanding social change in our image saturated and aesthetically charged world As emotional and artistic images inform our perceptions and evaluation of politics art and performance often provide new and creative ways of understanding self and society Spanning the nineteenth twentieth and twenty first centuries *Workers of the World Enjoy* uses examples from major social movements that have dramatically changed the dominant capitalist society often in the name of labor Tucker investigates how class and culture develop as he raises questions about what it means for public life and social movements when politics and drama come together Tucker catalogues how aesthetic politics influences social movements from French Revolutionary syndicalism and fascism to the selling of the President and the street theater of the contemporary global justice movement He also discusses the work of political theorists including Jurgen Habermas Jeffrey Alexander and Nancy Fraser to critique the ways public sphere has been studied

Homeland Security, its Law and its State Christos Boukalas, 2014-03-26 This book assesses the impact of post 9 11 domestic counterterrorism policy on US political life It examines political discourse law institutional architecture and state population relations and shows that homeland security is a project with wide ranging implications for democratic institutions and culture These implications are addressed through a novel approach that treats law and the state as social relations and relates developments in law to those in the state and in social dynamics On this basis the book examines the new political representations in counterterrorism discourse especially regarding the relation between the state and the population It examines the form and content of counterterrorism law the powers it provides and the structure and functions it prescribes for the state By focusing on the new Department of Homeland Security and the restructuring of the intelligence apparatus the book assesses the new intelligence led policing model Finally it examines forms of popular support and resistance to homeland security to discuss citizenship and state population relations The author concludes that homeland security has turned the US into a hybrid polity the legal and political institutions of democracy remain intact but their content and practices become authoritarian and exclude the population from politics These legal and political forms remain operative beyond counterterrorism in the context

of the present economic crisis They are a permanent configuration of power This book is an indispensable companion for students of counter Terrorism and Security Studies Politics Human Rights Constitutional and Criminal Law American Studies and Criminology *Postscript on Insignificance* Cornelius Castoriadis,2011-02-24 Cornelius Castoriadis 1922 1997 was a philosopher social critic political activist practicing psychoanalyst and professional economist His work is widely recognized as one of the most singular and important contributions to twentieth century thought In this collection of interviews Castoriadis discusses some of his most important ideas with leading figures in the disciplines that play such a crucial part in his philosophical work poetry psychoanalysis biology and mathematics Available in English for the first time these interviews provide a concise and accessible introduction to his work as a whole allowing him to draw on the astounding breadth of his knowledge ranging from political theory and sociology to ontology and the philosophy of science They also render Castoriadis cutting polemical and entertaining style while displaying the originality and clarity of his primary concepts Intellectually provoking this timely collection shows how Castoriadis polemics are sharp and riveting his conceptual manoeuvres rigorous and original and his passion inspiring This is an excellent introduction to one of Europe s most important intellectuals

Lessons in Secular Criticism Stathis Gourgouris,2013-09-02 Secular criticism is a term invented by Edward Said to denote not a theory but a practice that counters the tendency of much modern thinking to reach for a transcendentalist comfort zone the very space philosophy wrested away from religion in the name of modernity Using this notion as a compass this book reconfigures recent secularism debates on an entirely different basis by showing 1 how the secular imagination is closely linked to society s radical poiesis its capacity to imagine and create unprecedented forms of worldly existence and 2 how the space of the secular animates the desire for a radical democratic politics that overturns inherited modes of subjugation whether religious or secularist Gourgouris s point is to disrupt the co dependent relation between the religious and the secular hence his rejection of fashionable languages of postsecularism in order to engage in a double critique of heteronomous politics of all kinds For him secular criticism is a form of political being critical antifoundational disobedient anarchic yet not negative for negation s sake but creative of new forms of collective reflection interrogation and action that alter not only the current terrain of dominant politics but also the very self conceptualization of what it means to be human Written in a free and combative style and given both to close readings of texts and to gazing off into the broad horizon these essays cover a range of issues historical and philosophical archaic and contemporary literary and political that ultimately converge in the significance of contemporary radical politics the assembly movements we have seen in various parts of the world in recent years The secular imagination demands a radical pedagogy and unlearning a great many established thought patterns Its most important dimension is not battling religion per se but dismantling theological politics of sovereignty in favor of radical conditions for social autonomy **Peripheral Insider** Khaled D. Ramadan,2007 With increased mobility and transnational interaction worldwide internationalism in contemporary visual art is no longer exclusively a western issue

Contemporary visual art includes works by expatriate artists who have settled in the west as well as artists outside the west reflecting on everyday events in a globalized world *Peripheral Insider* examines the conditions of expatriate artists from various angles the historical and colonial roots of the issue positions among theorists dealing with expatriate artists in the west the role of established art institutions and examples of recent developments in the field *Peripheral Insider* argues that expatriate art or internationalism in visual art is a phenomenon with a specific history closely related to colonial and post colonial experiences The contributors elucidate the book's main theme on various theoretical levels and set forth their analyses of a number of issues relevant to new interpretations of the post colonial agenda

The Certeau Reader Michel de Certeau, 2000 *Thinking After Europe* Francesco Tava, Darian Meacham, 2016-08-16 Jan Patočka perhaps more so than any other philosopher in the twentieth century managed to combine intense philosophical insight with a farsighted analysis of the idea and challenges facing Europe as a historical cultural and political signifier As a political dissident in communist Czechoslovakia he also became a moral and political inspiration to a generation of Czechs including Václav Havel He accomplished this in a time of intense political repression when not even the hint of a unified Europe seemed visible by showing in exemplary fashion how concrete thought can be without renouncing in any way its depth Europe as an idea and a political project is a central issue in contemporary political theory Patočka's political thought offers many original insights into questions surrounding the European project Here for the first time a group of leading scholars from different disciplines gathers together to discuss the specific political impact of Patočka's philosophy and its lasting significance

World in Fragments Cornelius Castoriadis, David Ames Curtis, 1997 This collection presents a broad and compelling overview of the most recent work in philosophy politics and psychoanalysis by a world renowned figure in contemporary thought

Writing, the Political Test Claude Lefort, 2000 One of the preeminent political philosophers of the 20th century makes a compelling argument for the political cogency of literary writing in this book which among to his intellectual autobiography and an introduction to his work

Critical Visions Anthony Elliott, 2003 In this remarkable book Anthony Elliott develops a wide ranging analysis of key issues and debates in contemporary social theory Drawing social theory cultural studies and psychoanalysis together in a bold configuration Elliott challenges the widespread view that social theory seems to have lost its way as a result of the diversification of conceptual approaches In outlining an approach that places imagination and creativity at the center of social theory Elliott argues that theoretical pluralism from post structuralism to postmodernism from psychoanalysis to deconstruction represents not the demise but the renewal of critical social theory Elliott opens with critical readings of the terrain of contemporary social theory and theorists among them Ulrich Beck Anthony Giddens Jürgen Habermas Jacques Lacan Cornelius Castoriadis and Julia Kristeva He follows with an analysis of key debates in critical social theory Questions relating to the globalization of risk citizenship morality and ethics politics and norms and sexuality and desire are all explored This book is essential reading for students seeking a broad understanding of the confluence of
